DAILY TRIBUNE.

Wolf in Sheep's Clothing.

At the German meeting, on the West Side on Saturday, called to organize a German Relief Society, appeared the editor of *Der National Demokrat*, an organ of American despotism, published in this city, with a frothy preamble and string of resolutions in which the appointment of a Committee of five laborers was urged, whose duty it should be to wait upon the Common Council and demand of that body work or bread. This luminous proposition, which looks to us nothing less than a violation of the City Charter, and the institution of revolutionary proceedings in our midst, the man supported in a speech full of dangerous and stupid doctrines; and had it not been for the accidental presence of HERMAN KREISMANN, Esq., he might have so far imposed upon his hearers as to have passed his resolutions. But Mr. KREISMANN took the platform, and, in a few sensible and well-timed remarks, showed his countrymen that the scheme was illegal and impracticable—that the Council had no power in the premises—that there was not warrant in the Charter for what was proposed—that the scheme was a political dodge, and that the poor fool who presented it was only a nose of wax in the hands of men who were using him to prejudice the German citizens against the city government, and, if possible, the cause of law and order. He showed that our government was not like the European despotisms which they had escaped; that here there is no obligation on the part of the governing power to secure to the laborer food and work, because it leaves him always free to follow what calling or pursuit he may choose; that where the government does not interfere by unequal taxation, unjust laws and the establishment of favored classes, in times of prosperity, it cannot be expected to act as the nursing mother in times of distress. He admitted the necessity of some action looking to the relief of the unemployed; but urged that individual and associated effort was all-sufficient for the exigency, and he hoped for the honor of the German name, daily growing brighter among the American people, that no extreme action would be taken. The Germans were not beggars; they are well to do, and are able and willing to take care of their own unfortunate. He closed amid great applause; and though the *Demokrat* man attempted a reply, he failed and sneaked off, beaten and ashamed.

All the American friends of the Germans hope that the positions laid down in KREISMANN's practical speech may be adhered to at all hazards, at least until our form of Government is changed. When the Slave power is dominant, and the doctrines of the Richmond *Enquirer*, Mr. BUCHANAN's principal organ, that it is the duty of the upper class to enslave all men who are not capable of taking care of themselves (Mr. DOUGLAS' doctrine also, *vide Springfield Speech*) are fully established, then will be the time in which the claims of the poor and unfortunate upon the authorities, for what they eat, drink and wear, can be maintained. Until then, let the Germans help each other, and with what American aid they will receive, we shall all get on as decent, Christian men should. Let us have no European socialism here. Where it flourishes, the Governments are masters of the people; in this country, the people are masters of the Government. Let well enough alone, and hand in your contributions to the German Relief Society, organized on American and Democratic principles.

The Times and Quinlan.

When the Democratic Sexton, QUINLAN, was caught robbing the grave-yard of its dead, the *Times* adopted the bold dodge of charging that he was a Republican, because LONG JOHN had not turned him out of office, and by this means break the force of the blow upon its party. The TRIBUNE promptly placed the saddle upon the right horse, and showed that there was not, and never had been, one drop of Republican blood in the said MARTIN QUINLAN, but that he was a brawling Democrat of the *Times* school, from the crown of his head to the soles of his feet. Instead of making an apology to its readers for the gross deception it had practiced, in regard to the politics of this scoundrel, as it ought to have done, it reiterated its falsehood, on the principle that a *lie* well stuck to is better than the truth, and then coolly assumes that the Republican papers admit that QUINLAN was a Republican, because they do not deny it as often as it sees proper to make the assertion! Whatever truck and dicker there may have been between LONG JOHN and QUINLAN, it was their own affair, and in no way made QUINLAN a Republican, or impaired his allegiance to the Democracy. The *Times* well knows that LONG JOHN has been in the habit of buying and selling the Irish Democrats; and the *Times* also knows that there are always plenty of them in the market, ready to be thus bought, and moreover we believe that LONG JOHN could buy the editors of the *Times* at a cheap price, in the present state of the money market. The abuse that it heaps upon him from day to day, is caused by chagrin, soured into malignity, because LONG JOHN had not embraced the editors of the *Times* in his schedule of purchasable Democrats.

Spanish Invasion of Mexico.

Private letters lately received in New York, represent that the project so long entertained by the Spanish Government for the subjugation of Mexico, has not been abandoned. On the contrary, the most extensive preparations are on foot in Cuba to get the expedition ready on a scale commensurate to the magnitude of the undertaking. Soldiers were daily arriving from Spain, troops were being drilled, and a reserve fund of over four millions of dollars in the royal treasury at Havana, for the purposes of the enterprise, and other resources, to the amount of fifteen or twenty millions, can be procured from the Spanish Bank and from the capitalists of Cuba. The expedition is represented as being ready, and only awaits the arrival of an opportune moment for action. It is intended to co-operate with the friends of Santa Anna in Mexico. It is thought that Comonfort, who, by the way, has just been declared Dictator, will be unable to make any effectual resistance to this league, and consequently but a short time will elapse after the landing of the league, before the city of Mexico will be in the hands of the Spanish.

New York Cattle Market.

NEW YORK, Nov. 12.

The Cattle Markets were very largely oversupplied yesterday, the receipts of the week being over four thousand, including some 250 left over last week. Prices went down to a lower figure than at any time before for many years. The average prices of the day were below 8 cents per pound for the dressed beef. Hind quarters of fair beef were sold in the Washington market during the past week, as low as [illegible] per pound. Consumers should now insist upon a large decline in their meat bills.

A meeting of Western Drovers was held at the Bull's Head last evening, at which a series of resolutions, complaining of the present high freights on the railroads over which their cattle are brought to the New York market, were adopted, and a Committee appointed to confer with drovers along the various routes, for the concentration of the patronage of all upon some road at re-

LATEST FROM KANSAS.

Adjournment of the Convention.

Constitution not to be Submitted to the People.

[From the St. Louis Republican, Saturday, Nov. 14.]

LAWRENCE, K. T., Nov. 9, 1857.

Editors Republican:—The Lecompton Constitutional Convention closed its labors on Saturday evening last, and adjourned *sine die*. On Sunday morning the tents of the United States army were struck, and the soldiers were under motion, *en route* for Fort Leavenworth, where they go into winter quarters. They passed Lawrence at noon on Sunday, and furnished us the first intimation that the Convention had adjourned.

I have not seen the Constitution, but learn that it is a pro-slavery Constitution throughout; but with an intention to make a show of fairness, they have passed a separate clause, sanctioning slavery. This section, *and this section only*, is to be submitted to all persons who are in the Territory at the time the vote is taken upon it, which is said to be on the 1st of December, 1857. At the same time, State Officers are to be elected. A provisional Government, with Gen. Calhoun, who was President of the Convention, as Governor, was formed, to go into operation immediately.

It is evidently the design to get this Constitution accepted by Congress, prior to the assembling of the Territorial Legislature. In this, however, they will be foiled.

I understand that a committee have already waited upon Governor Walker, asking him to convene an extra session of the Legislature to meet the contingency. From the character of my information, I have no doubt but the Governor will grant the request. Indeed, with his past position I cannot see how he can do otherwise.

Governor Walker has written a letter to the President, in which he says:

I understand that you and all your Cabinet cordially concur in the opinion expressed by me, that the actual *bona fide* residents of the Territory of Kansas, *by a fair and regular vote, unaffected by fraud or violence*, must be permitted in adopting their *State Constitution*, to decide for themselves what shall be their social institutions. This is the great fundamental principle of the act of Congress organizing that Territory, affirmed by the Supreme Court of the United States, and is in accordance with the views uniformly expressed by me throughout my public career. I contemplate a peaceful settlement of this question by an appeal to the intelligence and patriotism of the whole people of Kansas, who should all participate, freely and fully, in this decision, and by a majority of whose votes, the determination must be made, as the only proper and constitutional mode of adjustment."

In his inaugural, the Governor took the same broad position that the constitution, not a part, but the *entirety*, must be submitted to a full and fair vote of *all* the people. In his speech at Topeka on the 6th of June, he reiterated this position still more strongly, and repeated the same at Big Springs. Yours, truly, X.

From the correspondent of the St. Louis *Democrat* of the same date we get the following items:

BANK BILL.—In the constitution there is a provision for a complete banking system. It decides that the capital shall be $3,000,000, and that there shall be four branches, two on each side of the Kansas River. The convention declared the bank charter granted for banks in Kansas, last winter, as null and void. In debating this proposition, it came out that in making up a bank at Lecompton, last summer, it was necessary, in accordance with the charter, to exhibit a cash capital of $50,000. This was done by borrowing $2,000, and putting it in two bags. While the Governor counted one bag at a time, the other was carried out and brought in again, and this was done until $50,000 were counted and certificates obtained.

The State election under this constitution is to be held on the first Monday in January, for State officers and a State legislature.

The Senate is to be composed of 15 members and the House of 45.

No one shall be Governor who has not been a citizen of the United States for twenty years.

STEAMBOAT DISASTER.—The steamer Reindeer, of Alton, when about six miles below that city, on her downward passage, ran foul of a snag, and was sunk in such a condition that she will be a total loss. She was owned by Gov. Matteson, J. J. & W. H. Mitchell, Captain Hawley and G. B. Sweet, and valued at $15,000. No insurance.

☞ HON. ASHLEY SAMSON, one of the most eminent and respected citizens of Rochester, N. Y., and one of the pioneers of that city, died there on the 13th inst., aged 70 years. Mr. Samson was married to a second wife a few days before his decease.

☞ The Newark *Advertiser* says: "Eleven persons came into our office one day last week asking alms, ten of whom were more or less intoxicated. One of them was given a loaf of bread, and went directly to a rum hole with it. He soon came out and threw the bread under a neighboring building. Another was given some bread also, but, instead of eating it, fed it to a horse which was tied at the sidewalk!

CITY ITEMS.

RELEASED ON BAIL.—Martin Quinlan, the City Sexton, charged with grave robbing, was released from custody on Saturday upon $2,000 bail.

GALENA AND CHICAGO RAILROAD—FULTON LINE.—The Fulton passenger train, leaving here at 7.45 P. M., will be discontinued after Monday (to-day).

NATIONAL THEATRE.—The Keller troupe has been engaged for another week, and announce some new tableaux and a new ballet. Their representations are really beautiful and well worth seeing.

SEE advertisement headed "Information wanted." Any information which can be furnished to Mr. Bowen, or at this office, will be thankfully received, and help to further a charitable purpose.

FIRE.—The alarm of fire on Saturday afternoon was occasioned by the exploding of a small can of camphene in the drug store under the Sherman House. The fire was extinguished with a few pailsful of water.

MCVICKER'S THEATRE.—Miss Logan has been engaged for another week, and will assume the *role* of *Pauline* in the "Lady of Lyons," with Mr. Perry as *Claude Melnotte*. The afterpiece is "Matrimonial Squabbles."

MASONIC FUNERAL.—The funeral of Mr. Pilkins took place yesterday from St. John's Church, in West Lake street, at 10½ o'clock, A.M. The deceased was buried with Masonic ceremonies and a very large number of the order was in attendance.

☞ WINCHELL.—This, the funniest man of the times, draws large audiences to listen to mirth provoking comicalities and delineations of humorous character. It is well worth the trouble to attend one of his exhibitions at Metropolitan Hall.

AID FOR THE POOR.—The "Sons of Malta," a Masonic Society, have some $2,000 on hand, obtained for the purpose of relieving the poor, and have decided to expend the money during the present winter, and will hold a meeting on Tuesday (to-morrow) evening for the purpose of taking some action in the premises.

MELANCHOLY ACCIDENT.—The *Times* says: "An express messenger named Snow fell from the second story of a building, on Saturday morning, on South Water street, and was taken up dead. Deceased has relations by the name of Winter residing in the western part of this State, who have been sent for."

RECOVERY OF STOLEN PROPERTY.—Last night Charles Noyes, of the private police firm of C. P. Bradley & Co., went to Woodstock and recovered a horse and buggy which had been stolen in this city. The thief had pawned the property for his tavern bill and five dollars in money—some ten dollars in all—and left for parts unknown.

WHERE TO GET A WINTER'S SUPPORT.—In answer to our offer to act as an intelligence office, to find situations for the unemployed, a gentleman drops us a note saying, that he wants a man or stout boy to do chores on a farm eleven miles from the city. He will give such an one his board and a home through the winter. The work is light. Apply at 220 Lake street, and inquire for G. T. Abbey.

SABBATH SCHOOL CONVENTION—THIRD DAY.—EVENING SESSION.—Meeting opened with prayer by Rev. Mr. Searle, of Princeton.

The resolutions submitted by the Business Committee, and made the order of business for this evening, were discussed by different individuals and adopted with slight modifications of phraseology in one or two instances—except the one on music, for which a substitute was offered by Dr. Boone, and adopted as follows:

Resolved, That music is a powerful auxiliary, both in gathering and retaining children in the Sunday Schools, as well as efficient afterward in directing their youthful minds to their Saviour; and as it is exceedingly desirable to revive congregational singing in our churches; Therefore—

Resolved, That the cultivation of music among the children, in the singing of sacred songs adapted to their age, is highly worthy the attention and efforts of all engaged in Sabbath School instruction.

Resolutions of thanks were passed to the Superintendents of the following Railroad Companies, who had provided [illegible] passes home over their roads:

Chicago, Burlington and Quincy Railroad; Chicago and Rock Island Railroad; Illinois Central Railroad; Mich. Southern and Northern Indiana Railroad; Galena and Chicago Union Railroad: Chicago and Milwaukee Railroad: St. Louis, Alton and Chicago Railroad; Chicago, St. Paul and Fond du Lac Railroad.

Also, to the President, Hon. Chas. G. Hammond, for the able and impartial manner in which he had presided over the meetings of the Convention.

Also, to the Secretary for his faithful discharge of his duties.

Also, to the First Baptist Church, for the use of their House during the meetings of the Convention.

Also, to the Methodist Church, for the use of their House of worship this afternoon for a meeting of the children.

Also, to E. S. Wells, Esq., the lessee of Metropolitan Hall, for the use of the Hall this afternoon for a meeting of the children.

Also, to all persons who have opened their houses for the entertainment of delegates to the Convention.

All of which, on motion, was ordered adopted and published.

The Chairman of the Committee on statististics, made the following report:

	Schools.	Scholars.	Teachers.
Illinois	131	12,767	1,723
Indiana	17	795	104
Iowa	35	1,040	....
Wisconsin	8	697	100
Total	192	15 299	1,927

On motion of Dr. Boone, it was

Resolved, That a Committee of eleven be appointed, six of whom shall reside in Chicago, whose duty it shall be to consider the propriety of calling another Sabbath School Convention next fall, and in case it be thought desirable, to decide upon the time and place of holding the same.

Moved and carried that churches of the Northwest be recommended to district the towns and sections of country where they are respectively situated and endeavor to bring the children into the Sabbath Schools.

The Convention then listened to a short address from the President and adjourned *sine die*, after singing from the hymn, "Blest be the tie that binds," &c., and prayer by Rev. Mr. Ayres.

CONSTITUTION.

I. In carrying out the objects of this Society as indicated in the Act of Incorporation, it shall be the end aimed at not only to afford temporary relief to the destitute, but also by rendering timely counsel and assistance to deserving but indigent persons to place them above the necessity of aid; and without positively limiting itself to any one class in the distribution of its charities, the Society shall discriminate in favor of those in whom habits of temperance, industry and thrift give promise of permanent benefit from the aid furnished, and shall not embrace in the sphere of its operations such persons as are the proper subjects for the poor house or for the action of the county officers.

II. Any person may become a member of the Society by the payment of five dollars into its treasury.

III. The officers of the Society shall be a President, three Vice-Presidents, Secretary, Treasurer and thirty Directors. Ten from each division of the city. These shall constitute together a Board of Directors, and shall be chosen annually by the society, excepting the Secretary, who shall be appointed by the Directors.

IV. The Board of Directors shall have the exclusive control of the funds and of all the affairs of the Society, with full power to make such arrangements as they deem best adapted to carry out its objects, subject in all cases to the act of incorporation, to this constitution and to the special instructions of the Society. They shall make a full report to the Society at its annual meeting of all the proceedings of the year.

V. The Treasurer shall have in charge the funds of the Society and shall give satisfactory security to the Board of Directors for the faithful performance of the trust. He shall pay out the funds of the Society only upon the order of the Board of Directors and duly signed by the Secretary, and shall render to the Directors, at their stated meetings, and to the Society at its annual meeting, a full and correct account of the receipts and disbursements.

VI. The Secretary shall keep the records and conduct the correspondence of the Society, and shall also act as a general agent to carry into execution the various orders and plans of the Board of Directors.

VII. The Society shall meet annually on the first Saturday of November in each year, and special meetings may be called by the Board, or by the President, on the requisition of any ten members of the Society, of which meeting notice shall be published in the official paper of the city at least for three days previous.

VIII. This Constitution may be amended at any regular meeting of the Society, provided the published notice of such meeting shall state that amendments will be proposed.

IX. The Board of Directors shall have the power to fill vacancies occurring in any of the offices of the Institute, or in their own number.

X. The Board of Directors may appoint of its own number an Executive Committee of not less than seven members, and may delegate to such committee all or any portion of its powers.

RECORDER'S COURT.—In this tribunal on Saturday the following cases were disposed of:

John Downey pleaded guilty to an indictment for petty larceny, and was sent to the county jail.

William Green was convicted of stealing a horse and buggy from John Q. Hoyt, and his term of imprisonment fixed at one year.

Daniel Boyle was convicted of stealing clothing from Tappen Brothers, at the great fire, and his term of imprisonment fixed at one year.

A BENEFIT FOR THE POOR.—The German Fair and Ball, held in the German House last week, for the benefit of the poor, yielded the munificent sum of $1,400. Our German citizens have set apart a portion of this sum for presentation to the Chicago Relief Society.

The proceedings throughout were orderly and harmonious, and a determination was evident to use all reasonable means to prevent any serious suffering among the German poor. The committees were empowered to call another meeting.

AUCTION SALE OF BOOKS.—The sale of books at auction will be transferred to-day from La Salle street to the auction rooms of Messrs. Runnion & Kelley, No. 53 Dearborn street. Mr. Osband will offer, afternoon and evening until further notice, a large quantity of standard works, in cloth and calf bindings, embracing all departments of literature and science. Here is offered a most excellent opportunity to purchase the best books at less than half the usual prices and the public should not neglect it.

THE *Union* says that bakers are selling their bread at four cents per pound loaf, (glad to hear they have reduced from five cents.) It says that flour costs them $4,50 per barrel, out of which they manfacture 260 loaves of bread, and sell the same for $10.40, making a trifling profit of $6 on each barrel! Yet it utters a whine for the poor bakers who are selling at a loss! If the bakers don't fork over a few dozen loaves to the "stable of humanity," after that defense, they are an ungrateful set of wretches, and will disappoint the expectations of their fast shyster advocate.

OPENING A RAILROAD OFFICE.—The new ticket office of the Pittsburgh, Fort Wayne and Chicago Railroad, in the new iron building, corner of Randolph and Dearborn streets, was opened on Saturday evening by Mr. Boss, the popular and gentlemanly general agent of the road. A large number of railroad men, citizens and members of the press assembled in the spacious office and had a good time generally. Toasts were drank, stories told and the participants enjoyed themselves to the utmost.

The office is one of the finest in the city, is centrally located and immediately upon the great route of travel to the post office from the business portions of the city. It is handsomely fitted up and conveniently arranged. Mr. Boss is one of the most popular and efficient railroad men in the West, and the high favor in which his road is held by Western people is mainly due to his individual exertions. Success to friend Boss and his road say we.

DUO AND TRIO.—On Saturday evening, a woman, who said she was a widow, arrived in this city by one of the railway trains from the East. She took a carriage to go to some place in the North Division which the driver had some difficulty in finding, and before arriving there the woman was delivered of two children. One of them, our informant states, died soon after its birth; the other is doing well.

One day of the week just closed, a German woman living in Wells street, was delivered of three infant responsibilities, all of which are in a flourishing condition, notwithstanding the hard times.

GERMAN RELIEF MEETING AT WEST MARKET HALL.—On Saturday afternoon, the Germans held an adjourned meeting at West Market Hall for the purpose of devising means of relief for the destitute among them. A number of addresses were made in the German language which were well received.

A Committee for each Ward, consisting of three persons, was appointed for the purpose of ascertaining the condition of the destitute, for consultation, etc.

It was also resolved to secure a German representative in the American Relief Society.

TO THE UNEMPLOYED.—*Editors Tribune*:—As there are various places suggested to different persons for giving employment to the needy, will you publish the following proposition from myself:

I have a stone quarry within the city limits, with a steam engine for the purpose of quarrying the stone; and I can furnish stone suitable for macadamizing, or paving, in quantities that will employ a large number of men. Now, if the city, or county, will provide for the payment of as many men as they see fit to send me, they shall be employed during the winter, and the city takes the stone at a stipulated price, paying me for the same in the spring, or when they have means.

REUBEN TAYLOR.

A MOVE IN THE RIGHT DIRECTION.—At a meeting held by the Germans of the 11th Ward in New York last week, a committee was appointed with power to act in the present emergency. This committee has induced a certain baker to furnish two and three-fourths pounds of good, wholesome bread for only six cents! or at prime cost to himself. The committee sell tickets at six cents each, with which the purchaser proceeds to the baker and obtains his loaf of bread. They have also nearly completed an arrangement with all the lager bier brewers in the ward, to set apart one fourth of their proceeds one day in each week to those too poor to buy it themselves.

Why not inaugurate a similar movement in this city? The cheaper flour here would enable a committee to furnish a six pound loaf for six cents and the lager bier saloon keepers would no doubt cheerfully do their part.

EDITORIAL LUGGAGE.—The *Journal* of Saturday contains the following announcement:

Our friend Wheeler, of the Buffalo *Express*, is at the Tremont. A parcel, upon examination found to contain his baggage, was fully identified among the stray baggage at the Briggs this morning.

In order to avoid mistakes and make the identification complete, albeit the parcel was labeled "Rufious Wheler, Edetur," a committee was appointed to open the "chist" and note the contents. The following is a copy of the invoice:

"One plug hat, ancient and shockingly smashed; one white shirt, very dirty, and minus the "nether end;" one fine tooth comb and one coarse do; one red flannel shirt in a tolerable state of preservation; one set candle moulds, much battered; one broom-corn shaving brush with heavy iron handle; one cat's tail mounted on a stick, and evidently used for a tooth brush; one razor and one jack-knife; one Teutonic Bible, published A. D. 1740; one pair of old slippers, and divers useful and valuable articles and other things."

The committee decided that the "baggage" was good for the owner's board, and Drake kindly permitted him to remain in the hotel.

CHICAGO RELIEF AND AID SOCIETY'S MEETING.—This Society met on Saturday evening, in the Common Council Chamber, for the purpose of effecting an organization for the relief of the destitute, under the charter granted by the Legislature at its late session. A large number of our best citizens assembled on the occasion, and the gathering was one well calculated to start the Society most auspiciously.

E. C. Larned, Esq., was appointed Chairman, and Dr. Henry Wardner, Secretary.

The Chairman explained the object of the meeting, and called the roll of members. Twelve members answered to their names.

On motion, all present were made associates for the purpose of organization.

The annual report was read by Dr. Wardner; also a dissertation on the deficiencies of the Society and the remedies, for which we have not space in this issue.

Rev. Dr. Burroughs, from the Committee on the Constitution, read his report, which, after some discussion and slight alteration, was adopted.

The organization was then completed by the election of the following officers:

President—E. C. LARNED.

Vice Presidents—S. S. Hayes, Geo. W. Gage and John H. Kinzie.

Treasurer—B. W. Raymond.

Secretary—Dr. H. Wardner.

The following Board of Directors was then elected:—

North Division—I. N. Arnold, S. S. Greele, Geo. W. Dole, E. I. Tinkham, H. Kreismann, P. Anderson, Z. C. Hoag, Rev. R. H. Clarkson, C. G. Hammond, Jos. T. Ryerson.

South Division—H. Fuller, J. W. Waughop, J. D. Webster, H. N. Heald, J. O. Wilson, Timothy Wright, J. H. Woodworth, N. S. Davis, D. J. Ely, Rev. J. C. Burroughs.

West Division—Walter Lull, Dr. H. Wardner, A. Carter, Samuel Hoard, J. C. Hoard, W. B. Egan, D. J. Lake, C. N. Holden, P. W. Gates, R. Taylor.

The Directors agreed to meet at the Tremont House on Tuesday evening (to-morrow), at half-past seven o'clock.

BRYANT & STRATTON'S FREE LECTURES.—Rev. Wm. W. Patton, of the First Congregationalist Church, will deliver the fourth of the course on Tuesday evening next, at College Hall, No. 48 Clark street. Subject, "Young America." This is a fruitful theme, and in Mr. Patton's hands will yield both instruction and entertainment. Our young men will be sure to appreciate it.

OTTIGNON'S GYMNASIUM.—The regular winter class at Ottignon's Gymnasium is now being formed, and pupils who desire to begin with the class should join immediately. It is not necessary to urge upon the young men of this city the benefits both to body and mind to be derived from an attendance at the Gymnasium, aside from the pleasure of the thing. We trust the class will fill up rapidly, and that the annual exhibition will be the finest yet given.

KNOW ALL, That Grubb & Gilbert will sell this (Monday) morning, at 9½ o'clock, the best assortment of Household Furniture ever offered at Auction. Give them a call, if you want bargains.

Also, a lot of new and second hand Carpets, all sizes and qualities. Crockery, Glassware, &c.

WE recommend those families having received rolls of Dr. J. P. Healey's salve, to try it immediately, and to be prepared to buy, not only one roll, but a dozen or half a dozen at least; for he assures us you will not get any more of the same article again for three years from now. It will be for sale also, for a few days, at No. 132 Randolph street. no12-6t

Lillie's Celebrated Chilled and Wrought Iron Fire and Burglar Proof Safes, Bank vault doors and Empire bank locks, can be found at No. 21 Dearborn street. au14-tf-a76 B. P. PRATT, Agent.

MARRIED.

At the house of Rev. J. E. Kenney, in this city, the 14th, Mr. HIRAM S. HAIGHT to Miss CATHARINE WRATH, of Chicago.

In Elmira, N. Y., on the 8th inst., by Rev. Wm. Putnam, of Waverly, Mr. ROBERT HUNT, of Chicago, to Miss JANE ANSELL, of Elmira.

DIED.

On Sunday Morning, Nov. 15, 1857, after a lingering illness, Mrs. REBECCA, wife of WALTER HAY, M.D.

Her funeral will take place from Mrs. Franklin's residence, 79 Indiana street, on Monday afternoon, at 3 o'clock.

Charleston Mercury, National Intelligencer, and New York Herald please copy.

PURE WINES, BRANDIES, ALE, PORTER AND OLD BOURBON WHISKEY—constantly on hand for medical use. A complete and select stock of Sherry, Port, Madeira; sparkling, sweet and dry Catawba Wines; Catawba Brandy, &c. Also, a very superior lot of Claret Wines, just received.

COMMERCIAL.

CHICAGO WHOLESALE MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE, }
Saturday Evening, Nov. 14, 1857. }

The Flour and Grain market shows rather a downward tendency, and but little activity, though for present delivery no decline is yet noted. Receipts too are decreased, and shipments keep full up to the amount coming in, as vessel freights have not advanced. At this time last season receipts were extremely small in comparison with the present.

But little business is doing on the Canal; some three-fourths of the boats are laid up already, the fall trade having been small; there is little lumber shipped down it, as the yards below are pretty well stocked, and money is scarce thereaway to buy more.

The first snow storm of the season occurred here this morning, giving a very wintry appearance to things; but it extended only a short distance in the country. The cold weather makes coal in demand, and 70 tons were retailed by one firm yesterday; but there is an abundance of it—20,000 tons more than last season and more on the way by lake, which keeps prices low, good Chippewa retailing at $5,50, and Briar Hill $6 ℔ ton at the yards.

HOGS are coming in more freely, and packers are slaughtering to some extent on farmers' account—200 head went to one house yesterday; three car loads large Hogs, averaging some 280 lbs, sold yesterday evening at $4 gross, to go to Milwaukee. The demand for barreled pork, too, increases, and one dealer received three letters of inquiry to-day from Buffalo, Oswego and Ogdensburg; while orders for large quantities of mess are here from other points. The demand, too, for Hogs, is improving. A large number of still fed Hogs are offered from Peoria; $4 gross can be had here for these, as they are choice and heavy. The St. Louis Republican of the 13th says:

Hog packers ceased operations to-day, the number of Hogs in pens becoming exhausted. We hear it suggested that dealers will commence purchasing as soon as sufficient droves come forward. Arrivals at this time are not heavier than are required for butchers' use and for shipment. The figure that will probably be offered will be within the limit given yesterday, namely, $4@4,50, or a division of those prices, selling at $4,25 ℔ 100 lbs. The opinion has been expressed, also, that transactions this season will exceed those of last, and that a much greater number will be packed on owners' account.

The Portsmouth Daily Tribune, of the 9th, says:

Some fears are entertained of the corn outstanding upon the Scioto Bottoms. Good judges estimate at least 200 000 bushels of corn in the field between Portsmouth and the Davis farms, (nine miles) all of which will be lost in case of a sudden rise of water over the bottoms.

The Madison (Ind.) Courier, of the 7th, says:

The hog feeders and packers face each other, neither party having much disposition to trade. The asking price is $5 50—$5 is offered. The weather has been too warm for packing; under ordinary circumstances the buyers and sellers would soon come together.

A sale is reported at Richmond, Kentucky, of 900 head at $4,00.

The weather is cooler, and the season is so far advanced that something must be done soon; feeders and farmers must either pack or sell on their own account.

No new crop of Sugar or Molasses has as yet been received in Cincinnati, though consignments are looked for during the ensuing week. Receipts will also be had in this city.—Our quotations of prices of present stocks are derived from heavy dealers on Water street, who have the largest stocks, and are presumed to be correct, though smaller dealers may not sell at so low rates.

The market for Cooperage continues dull and prices so irregular that it would be useless to attempt giving quotations. Any kind placed upon the market has to be sold at a sacrifice.

The following are transactions of to-day and nominal rates:

Canal Breaks.

NEWARK, November 13, 1857.

TO N. S. BENTON:
One hundred feet of towpath gone, and two feet below bottom, three miles east of Palmyra; beat out. Another break two miles east of Newark; fifty feet out and three feet below bottom. Will take five days to repair.
J. D. FORD.
—[Albany Statesman.

THE UNITED STATES SCHOONER LAMPLIGHTER.—The tug Oswego arrived yesterday with this schooner in tow. She is not so much damaged as she was supposed to be. Her keelsons were thought to be broken, and she has two or three holes in her bottom. The steam pump kept her clear by being started three or four times a day. She has gone into dry dock for repairs. The Oswego had a very rough passage down.—[Detroit Adv., 14th.

MARINE INTELLIGENCE.

PITTSBURG AND QUINCY IN.—The propeller Quincy, after being aground a day and a half near Milwaukee, got off and arrived here yesterday morning. The propeller Pittsburg, which has been a long time on the way up from Buffalo, arrived here safely yesterday morning. She lost some of her buckets on the way, and had to lie sometime at the Islands, during the rough weather.

A NEW TRADE.—The Baden, a schooner of 20 tons, cleared from this port Saturday for New Orleans, La., via canal and Illinois River, with 4,000 young pines and a small lot of fish.

☞ The schooner Foam, Capt. Moore, which cleared from this port last week, went ashore on Galoo Island, Thursday, and is reported to be a total wreck. She was owned by Wm. Crawford.—Oswego Times.

LAID UP.—The City of Cleveland has gone into winter quarters at Cleveland, having made her last trip day before yesterday. The May Queen will continue on the route for the present, leaving here on alternate days as heretofore.—[Detroit Adv., 14th.

☞ The propeller Missouri of the W. T. Co., was expected in port yesterday. The Tonawanda of same line is here. Capt. Palmer reports that it is probable the schooner Miranda has been got off Bois Blanc Island, as he saw nothing of her passing.

THE MAYFLOWER.—This propeller of the Western Transportation Company, left this port yesterday morning for Buffalo with 14,000 bus wheat, 800 bbls flour and 550 pigs lead.

FOUR DAYS LATER FROM EUROPE.

The Ariel off Cape Race.

ST. JOHN'S, N. F., Nov. 14.

The Vanderbilt steamship Ariel, from Bremen via Southampton, was boarded off Cape Race last night by the news yacht of the associated press.

The Ariel left Southampton on the 2d, bringing Liverpool advices of that day, four days later than by the Arabia. She had 184 passengers and over $400,000 in specie.

The steamship Niagara, from Boston the 21st, arrived at Liverpool on the 1st.

The Vanderbilt, from New York the 24th, had not yet reached Southampton.

The Ariel is due at New York on or about Tuesday morning.

The news is not of an important description.

The Belgian Ministry had resigned.

King Victor Emanuel, of Sardinia, had subscribed 10,000 francs to the Indian Mutiny Fund.

The telegraph between Boona and Cape Spartivan, to connect Europe with Africa, had been completed.

She health of the King of Prussia continues to improve.

The attempt to launch the Great Eastern was made on the appointed day, but resulted in a failure, and the second trial had been postponed one month. Several persons were injured, two of them seriously.

There is nothing new from India.

The English money market was in a depressed state. Consols for money closed on the 2d at 89⅝a9⅞, and for the account of the 7th Dec. 90½a90⅝. Bank stock was quoted at 209a211, and East India stock 210a212.

On the Paris bourse the three per cents closed at 66 francs, 90 c. for money, and 67 francs 20c for the new account.

Methodist Anti-Slavery Convention.

CINCINNATI, Nov. 14.

A special convention of delegates from the various annual conferences of the Methodist Protestant Church, North and West, has been in session here for several days.

No important action was taken until yesterday, when the following report was adopted:

Whereas, We have received satisfactory information that entire freedom of discussion on the subject of slavery cannot be enjoyed in Lynchburg, and, whereas we do not feel under obligation to meet our Southern brethren upon any other ground than terms of equality, therefore,

Resolved, That it is inexpedient and unnecessary for the representatives of the North and West to attend the general conference at Lynchburg, with a view to secure redress of the grievances which we suffer.

At the afternoon session a memorial was drawn up to the general conference, which says: It is our earnest desire to perpetuate a union with the general association, but we must in frankness state that insufferable impediments prevent the continuance of the union; that traffic in slaves, or a voluntary holding of slaves, conflicts with the rights of humanityr that we regard it as the bounden duty of all ministers and members of churches to oppose the above practices, and that the word white be struck from the constitution. The memorial was adopted.

The Convention will probably adjourn to-day.

From Washington.

WASHINGTON, Nov. 14.

It has been ascertained that Great Britain has never recognized the jurisdiction of Costa Rica over the river San Juan or the Transit Route. All she desires is that Costa Rica shall have the right of navigation for the export of her produce by the river and the frontier, to be settled by free negotiation between the two governments. None of the contracts or grants made by Costa Rica, regarding the transit route, are continued or approved of by Great Britain.

Misgivings are felt for the safety of a heavy Sutler's train, with half a million of dollars worth of supplies, which was behind that destroyed. If the heavy snows should have turned it out of the route taken by the other train, it is not improbable that it escaped sharing its fate; otherwise its situation is very precarious.

The last letter from Col. Johnson, commanding the expedition, reiterates the determination to enter Utah Valley before winter, where he will not let his men starve, while the Mormon graneries are overflowing.

Col. Johnson left four companies of Infantry at Fort Laramie for the purpose of keeping communication open.

It is now understood that George Platte will supercede Mr. Seaman, as superintendent of public printing, at the opening of Congress.

Phe President maintains the right to seize Walker anywhere at sea, but will not order his molestation, if he once gets within any foreign jurisdiction.

Arrival of the California Steamer.

NEW ORLEANS, Nov. 13—9 P. M.

The Granada's mails have just arrived. The vessel is detained at Quarantine on account of yellow fever. The St. Louis takes forward over a million in treasure. The news from California is unimportant. Mining news favorable. The Vigilance Committee had revoked the penalties attached to a return from banishment.

An arrival from China states that the European residents at Singapore had been massacred on the 4th of August.

An arrival from the plains states that between the 10th and [illegible] of September, a train, consisting of 100 persons, was attacked by the Indians, and all the persons were slain, except a few children, who were sold to the Mormons. It is generally believed that the Mormons were at the bottom of the affair.

The Legislature to-day elected J. Pinckney Henderson and J. W. Hemphill to the United States Senate.

Great Meeting in New York to Defeat Mayor Wood.

NEW YORK, Nov. 14.

There was an immense meeting to-day in Wall street, of citizens opposed to the re-election of Mayor Wood. Henry Nicol, Democartic ex-member of Congress, presided. Wm. S. Havemeyer, Democratic ex-Mayor, received a unanimous nomination, but declined. A committee was appointed to select a candidate, when the meeting adjourned.

The meeting was attended by a large number of our most prominent bankers, merchants, and mechanics, and the proceedings throughout were quite enthusiastic.

Dr. James T. Curtis, the first physician who practiced Homœopathy, committed suicide in this city yesterday, while in a fit of temporary insanity.

Explosion of a Steam Tug.

DETROIT, Nov. 14.

The tug boat Noah T. Sprague, of Buffalo, exploded while in the river opposite this city this P. M., and instantly sunk. Of her crew of ten persons, eight were instantly killed.—The captain and first engineer escaped with severe but not fatal injuries. The bark Sunshine, which she was towing, was completely riddled in the rigging, but no one was injured on board. The cause of the explosion is not yet ascertained. Names of the killed: John Ramsdell, Conneaut, mate; Sam. Woodward, Detroit, second engineer; Sanford Everett, Springfield, Pa., and John McPherson, Cattaragus, N. Y., wheelsmen; Sanford, Cook, Stevenson and Tollivar, firemen, colored, Amherstburg, C. W. Capt. Snow, of Buffalo, escaped with slight injury. Thomas Allen, first engineer, has a leg broken, and is somewhat scalded.

Trials in Canada.

LONDON, C. W., Nov. 14.

Thomas Craig, convicted of altering the date of a promissory note and passing the same, thereby defrauding the discounter, has been sentenced to four years' imprisonment.

J. F. Wardey, station master on the Great Western Railway, for wrongly allowing an express train to pass, thereby causing a collision, has been found guilty; but in consequence of numerous and respectably signed petitions, was fined only thirty dollars.

Missouri Legislature.

ST. LOUIS, Nov. 14.

The bill to legalize a tax to sustain the credit of the State was defeated in the Legislature yesterday by a majority of 30.

Sheffield Coal.

DAILY ARRIVAL OF 100 TONS.—THIS coal will compare favorably with the best coals in the market. Professors Porter and Silliman, of Yale College, in their analysis, state as follows:
"Your coal is of superior quality for the production of steam. We have used the coal in an open grate for several days, and find it perfectly adapted for that use. It burns to a comparatively small quantity of ashes, without producing clinker, &c., &c."
Extract from another analysis: We find your coal even superior to that of the famous Briar Hill in matter of gas and coke.
Our sales, which exceed at the present time by far that of any other yard in the city, prove conclusively that the SHEFFIELD COAL is only to be known to be appreciated.
Among the many advantages arising to the purchaser, the following may be enumerated:
1st. The coal is one of the best in the market. Our daily increasing sales prove this fact; analysis proves it. The following are among the many recommendations received from time to time from some of the most extensive manufacturers in the city:
"We have for some time past been using the Sheffield Coal at our works for the purpose of producing steam. Considering the difference in price between it and other coals in the market, we give the Sheffield Coal the decided preference." (Signed)
H. P. MOSES, Iron Works,
HAMILTON BROOKS & CO., Manufacturers,
THOMAS GEORGE & CO., Do.
FREDERICK HESS, Chicago Iron Works.
1st. From some of the most extensive Hotels in the city, the proprietors state as follows:
"We are using the Sheffield Coal in our houses. We find it pleasant to burn, producing comparatively little ash. Repeated trial has satisfied us that it will compare favorably with the best Coals in the city. Considering the difference in price, we consider it decidedly the cheapest Coal in the market." Signed,
DOBGE & LANGLEY, Sherman House,
STEVENS & WILLARD, Matteson House,
A. J. SIKE, Stanwix Hall.
2d. The coal is always dry, and in good condition. At a heavy cost we have erected a mammoth building, (capable of holding 600 to 1000 tons of coal.) This covering completely protects our coal from rain, and the effects of the atmosphere.
3d. The coal is carefully screened before delivery. This fact alone makes a difference of at least fifty cents per ton in favor of our customers.
This Coal is used extensively in Chicago, by Brick and Lime manufacturers, and is found especially adapted to that purpose.
For information in this line, we would refer to one of the largest brick manufacturers in the city, Judge Watkins, Esq.

DAILY TRIBUNE.

No. 51 CLARK STREET.

CITY OF CHICAGO.

Monday Morning.............Nov. 16, 1857.

An Insane Legislature.

It will be seen that the Legislature of Missouri, now in session, has refused by a decisive vote, to legalize a tax to sustain the credit of the State. This is madness for which we cannot account, except by charging it to the wrong-headedness of that Border Ruffian gang by whom both branches of that body are controlled. How this unfortunate—nay, worse than unfortunate—criminal policy will affect the credit of the State, remains to be determined.

Kansas Matters.

Our Kansas correspondent was not wrong in his programme of the operations of the Pro-Slavery party. A dictatorship with JOHN CALHOUN, of infamous notoriety, at the head, is to be established under the specious name of a Provisional Government, whereby the authority of the United States and Gov. WALKER, its representative, is superceded. The method of submitting the Constitution to the people is that heretofore agreed upon. It is this: The "Constitution with the Slavery Clause," or the "Constitution without the Slavery Clause,"—these are the two forms of the ballots authorized by these law-makers. Of course the people are to adopt the Constitution whichsoever way they vote. There are twenty thousand voters in Kansas. This Convention speaks in the name of only 1600 of that number. Is this a swindle, or is it popular sovereignty for which DOUGLAS contends?

In a day or two we shall hear from our faithful correspondent again, when we shall know the exact and latest phase in which iniquity presents itself.

Work for the Unemployed Laborers.

We regret to see the flings and insinuations thrown at the proposition of Mr. THROOP. They are unjust towards that gentleman, and mischievous in their effects upon the minds of the unemployed laborers. Some "leaders of public opinion" in this city object to any measure suggested to find employment, but offer none themselves. No plan will satisfy them that contemplates making the unemployed earn their own living. They prefer levying contributions upon the owners of property and handing them over to be devoured by an idle mob. Hard work in cold weather is very disagreeable, and any measure looking to that mode of relief is very unpopular with the lazaroni.—Demagogues, of the viler sort, fan this hostility against work, and tell their dupes that all they need do, is to clamor; hold meetings; be harangued by their leaders; pass resolutions; demand money from the city, and bread from the rich, and both will be forthcoming.

But to come back to THROOP's proposition. It was offered in good faith and is by all odds the best and most practicable mode of relief yet made public. Let us briefly consider it.

There is a certain amount of relief that must be raised to support the unemployed poor. It must come out of the pockets of the owners of property. If distributed in the shape of alms, an enormous amount of fraud and imposition will be mixed with it. Hundreds will claim relief who possess the means of supporting themselves; hundreds more, finding bread, meat, fuel and clothing provided for them by public bounty, will make no effort to support themselves, but will prefer to dip their ladle into the public soup dish each day, and loaf away the winter in their houses or around the stoves in rum holes, picking up enough to keep them in tobacco and whiskey, and buy gallery tickets to the theatres, and pay their monthly "pinance" to their priests for the good of their souls.

Suppose that one hundred thousand dollars be the sum that must be raised, to support the able bodied laborers in Chicago, until spring who will shortly be out of work and means. Is it better to give them this money as a gift, or to make them earn it?

The $100,000 must be raised anyhow. The question is as to the best mode of distributing it. Mr. THROOP steps forward at this juncture and says to the citizens: "Gentlemen, I can find work for all the idle laborers in Chicago until next spring, but I have not the ready money with which to pay them; but I am willing to pay you for their work in valuable real estate. Take your $100,000 which you propose *giving away to them in alms and pay it to them as wages*, and for the work they do, I will give you property worth much more than the money you may expend. I don't want their services for nothing; I propose to pay, in good property, liberal wages for the work done. My object is two-fold—1st, to furnish work for the idle; 2d, to further the progress of my improvement."

We ask, is there anything unfair or improper in this offer of THROOP? And we here take occasion to state that he has been getting his canals dug for simply the clay they contain. By waiting a few years he can have them all completed without the expense to himself of a dollar. Every one knows that earth for filling streets and docks, and making brick, is valuable, and will become more so every year. But for the purpose of completing his improvements at an earlier day, he is willing to pay in property a large sum. He has already made a number of contracts with individuals to excavate for him this winter, and take their pay in building lots, lying north of his improvements in the 10th Ward.

Mr. THROOP's proposition is not only just but generous, and if the cavillers will suggest a better one, they will do the community a thousand fold more service than by merely finding fault. One hundred thousand dollars expended in the way proposed, will furnish employment for one thousand men until the Spring work opens. Find steady employment for that number of idle laborers, and the residue can be provided for without much difficulty.

We say in conclusion that schemes devised for the support of the able bodied idle, looking to alms giving and not earning, are wrong in principle and mischievious in consequence, and the devisers are enemies of the public good.—To-morrow we shall offer some suggestions as to the details of the plan and how to set it in motion.

Meeting of Congress.

Congress will soon be in session, and, if we mistake not, a fiery and stormy session it will be. The Congo Democracy have a clear working majority, sufficient for all party purposes; but the dissensions, bickerings, heart-burnings, jealousies and rivalries by which they are torn, warn us that the harmony among them may not be of great duration, even if it is recognizable at all. The first contest will arise upon the choice of Speaker and Printer. The power of the caucus will be brought to bear upon the refractory, and it is probable that the committees will be constituted and the printing spoil divided peaceably, though there are those who are of the opinion that the fight will begin in the opening caucus itself, and that thereafter it will rage with fury exactly proportioned to the zeal and courage of the combatants. If this point of difficulty is gotten over, there is another not so easily avoided. Mr. Buchanan's election was a swindle. The people of the North who cast their votes for him upon the assurance of their leaders, would not believe that his Southern supporters were the fanatics that they have proved themselves to be; least of all would they believe that he was committed to the nefarious doctrines which they even then proclaimed. "Buchanan and Free Kansas!" "Buchanan and the right of the people of the Territory, through the Territorial Legislature, to admit or exclude Slavery!" were the war cries by which thousands and tens of thousands were deceived. In the South, the issue for the occasion was of quite another sort. Then the contest was between Buchanan and Fillmore, both confessedly pro-slavery men; and the efforts of partizans were mainly directed to the attempt to prove that their man was sounder on the goose than his opponent. The Cincinnati Platform and the letter of acceptance received a Southern construction. Both were artfully drawn and with the intent to deceive. Statesmen like Hunter and Davis, and journals like the Richmond *Enquirer* and New Orleans *Delta*, saw in them an endorsement of their worst ultraisms, and were of course enthusiastic in the support of the candidate placed thereupon. Now the question is—"Who has been cheated?" For the first time since Mr. Buchanan came into power, the opposing factions stand face to face. The game of deceit is played out, and there must be a show of hands. The South, full of froth and fury, is anxious for the fight to begin. The North, through her Congo representatives, is, as usual, cringing and cowardly, shaking with fear of the consequences of the duplicity that has been practised. But neither swagger on one side or scurrility on the other, will stave off the *expose*. Douglas, as is his wont, plays the go-between; but even he, artful and unscrupulous as he is, will be forced to take position and subject himself to the hostility of the one faction or the other. We are anxious for the ball to open.

Besides this main question, there are others collateral thereto, out of which a war may at any moment spring up. The Ostend Conference, and the designs upon Cuba, are not forgotten, particularly by the South; neither are the pledges in relation thereto, in the North. The South is for acquisition, even at the expense of war. The North is for peace at all hazards. Mr. Buchanan, through his friends, is committed to each policy. Who is cheated in this? will be eagerly and angrily asked. And this Nicaragua matter, with its attendant consequences—what of it? The President, again, through his friends in different sections of the Union, is pledged to and against the Walker raid and further southern annexation. Who holds the hot end of the poker in that quarrel? And so through the whole list of measures and abstract opinions, upon which there is radical division between the North and South. Mr Face-both-ways has an account to settle with the American people, and the overhauling of the blotter is about to begin, and the friends of good government have cause to rejoice.

A Sensible Proposition.

A writer on our currency troubles, said to be a well known Boston financier, makes the following sensible suggestions:

> "In seeking for a cure (of a redundant paper currency) we must take the patient as he is. The people are accustomed to paper money, and bank notes can only be driven out by something better. 'Nature abhors a vacuum.' Let us try 'the expulsive power of a new affection.'
>
> "You have the remedy at hand. It is this:
>
> "When any payment is to be made by the United States, let it be done, not by a single draft on the sub-treasurer at New York, or Boston, or New Orleans, or Philadelphia, but by *many* drafts for small sums. And let the drafts be engraved and printed, differing a little in size and shape from bank notes. These drafts will be as convenient as the paper currency we have been in the habit of using; but, unlike that, they will always truly represent exactly so much gold lying ready for them at the mints or elsewhere, ready for exportation, as well as for domestic use.
>
> "This paper currency the people will not carry to the sub-treasury, or the mint, for payment, until they want gold. Much of it will remain in circulation from hand to hand. And in the process of years it will always adapt itself exactly to the demand for paper money, and will never by depreciation drive gold out of the country.
>
> "Although opposed in principle to a paper currency for small amounts, (and the introduction of *gold* as our money takes away the excuse for small notes,) yet for the present need I would recommend a moderate issue at first of such drafts for ten and five dollars each.
>
> "If issued immediately they would fill up a void which is now very inconvenient, and shopkeepers would give change in gold and silver, and regulate their prices accordingly.
>
> "If this really contitutional currency be kept back it will force the continued use of inconvertible bank notes. If freely used it may begin a new era."

If to this could be added a plan for making the U. S. Sub-Treasury and its branches the depositories of the people for all sums over one hundred dollars, for which certificates would be issued in the form of bank notes, and for the payment of which, without interest, the faith of the government would be pledged, half the banks now in operation and all the bank notes less than twenty dollars might go out of existence at once, and everybody be benefited thereby.

Wisconsin Election.

[From the Milwaukee Sentinel, Saturday, Nov. 14.]

It will be seen, from our figures this morning, that the vote for Governor is very close, and the result still in a doubt. We have endeavored to give our readers the correct returns, reported or official, as they have reached us, or been received by our opponents. We think that our table is very nearly correct, though the official returns from the counties not yet heard from may vary it several hundred votes. All we have to say to both parties this morning is, to "keep cool" and abide the issue. A few days, possibly a few hours, will tell the story.

There is no longer any reasonable doubt as to the complexion of the next Legislature. In the Senate the Republicans will certainly have six majority; and in the Assembly, unless the official figures in one or two counties, shall greatly change the reported result, the Republicans must have from six to seven majority.

The Madison *Journal*, of Saturday, in giving the official vote of a few counties, has the following:

> The above figures show a great falling off in the vote of the Democratic strongholds of the State; Milwaukee, Ozaukee and Washington. Whether the Germans were as diligent in those counties in gathering their *Krauter*, as were the Republicans elsewhere in their potato patches, or whether Huebschmannism contributed to this result, we are not advised. At all events, it helps somewhat toward an offset for Republican directions.
>
> We have better grounds for a hope of the election of Randall, and possibly two or three others on the Republican ticket, from the returns received yesterday and to-day, than at any previous time since the election.

BURGLARS.—The burglars appear to be busy at and around Kewanee, Henry Co. The *Dial* says: A few days ago several residences were entered and rummaged for valuables, but with rather poor success. Subsequently Messrs. Pratt & Bro's. safe was blown open, and a few dollars of uncurrent money abstracted. On Saturday night last, however, the worthy gentlemen who are engaged in the laudable pursuit of this world's goods, were more fortunate. At the Kewanee House they entered the sleeping apartment of Mr. Eddy, who had just returned from a wedding tour, took two gold watches and some sixty or seventy dollars in money from the trunk of Mrs. Eddy, and then left for the Carson House where they entered another sleeping room and abstracted from the pocket of the occupant valuable papers, money, and a certificate of deposit. At Wethersfield, one mile south, they made an attempt to enter the store of Mr. Morrill—but did not succeed—having broken the lock so that the bolt would not fly back, and subjecting Mr. M. to the necessity of breaking open his own store on Monday morning.

Sale of the Sunbury and Erie Railroad.

On Monday last, the Sheriff sold the Philadelphia and Sunbury Railroad, extending from Sunbury to Mount Carmel, or where it intersects the Mine Hill extension, together with seven tracts of coal land, containing about 3,000 acres, on which is erected the "Lancaster Colliery," and other improvements, and also all the locomotive engines and cars. The Lancaster Colliery tract was bid up to $800. The other tracts to $100 each. The sale was made by the holders of the second mortgage bonds, and was, of course, subject to the first mortgage, which amounts to $700,000. We understand that the second mortgage bonds $500,000 in amount, will be cancelled and converted into stock. The property was knocked down to E. S. Wheelen of Philadelphia, who represents the parties interested in the first and second mortgages. The bondholders of the third mortgage may, perhaps, realize sometime out of a tract of land covered by the latter mortgage.

SAMUEL BOWLES, Esq., late of the Boston *Traveller*, has resumed his old position in the office of the Springfield *Republican*. Dr. JOHN G. HOLLAND, Mr. BOWLES' former associate in the *Republican*, and its sole editor after he left, has sold out his interest, and withdrawn from active politics; and will hereafter devote his talents entirely to literary pursuits. The Republican is one of the best of our New England exchanges.

The New York Bread or Work Demonstrations.

Meetings in the Park—Proceedings of the Police Commission—Common Council &c.—United States Troops Ordered Out.

The great topics of remarks on Monday, in all quarters, says the New York *Times*, were the unemployed, their threats, their prospects, their rights and wrongs; what the city would or could do for them, and what of good or evil they are likely to do for the city before winter is over. Perhaps the first thing that really opened the eyes of people generally to the serious state of affairs was the call of Mayor Wood upon the Police Commissioners for the protection of some of the policemen, whose aid ever since the new police *regime* was inaugurated, he has steadily refused to accept. These were rumors—idle rumors. Everybody presumed them to be—that to day the banks would be attacked unless relief were given the unemployed at once. Nothing gave so much importance to this rumor as the fact, before stated, that the Assistant Treasurer had telegraphed to Washington and obtained the promise of troops from Governor's Island, to protect Government property in the city, if necessary.

MEETINGS OF THE UNEMPLOYED.

The workmen out of employment assembled pretty numerously in Tompkins' square, on Monday morning. They are divided into two parties, one supporting the old committee appointed by them to represent their wants, headed by McGuire, Noll and others, the others supporting the new committee appointed for the same purpose on Saturday and repudiating the committee first appointed, claiming that they are actuated by selfish motives and only want political notoriety. These last are led by D. Gordon, Peter Donnelly, and the others who formed the deputation which visited the Mayor on Saturday. At about 9 o'clock Gordon and Donnelly addressed the crowd, urging them to stand by each other until they obtained the relief which was promised them by the Mayor. Documents and letters from committees, Councilman Waugh, &c., were read and created some feeling in the crowd.

Messrs. McGuire and Noll also spoke to the people; those opposed to them manifested considerable disapprobation while they were speaking. The burden of their talk was quiet, abstinence from violence, (as well as food,) and patience until work was obtained. All who really wanted work were invited to sign a paper to that effect. Most of those present refused to sign. "What work have *they* got to give us?" said Gordon; "the Common Council haven't done anything yet." After all the leaders had had their say, the informal meeting was broken up. Many of the workmen, however, still hang around in Tompkins Square, which by common consent appears to be their rendezvous.

About noon, the unemployed in the City Hall Park became much more excited than they had been during the morning. They congregated in front of the City Hall, where many of them expressed the opinion that the Mayor had been humbugging them, and that he could give them work immediately, and pay them from the treasury, if he were so inclined. Some of the most violent talked of entering the Hall, forcing the Mayor out, and making him give them work immediately.

While these remarks were passing, the numbers in front and on the City Hall steps were increasing. Marshal Stevens, seeing and hearing of what was going on, came out and told them that it was not in the power of the Mayor to give them employment without the consent of the Common Council, and that they had better maintain order until the Common Council could act.

The Committee on Lands and Places met at 2 o'clock, and the Bread Committee at three o'clock. From each of these the unemployed had great hopes. Their leaders crowded into the Committee rooms, while the rest lay around on the grass smoking their short pipes, or sat on the chains, looking not over anxious as to the results. The meetings of both Boards of the Common Council, at 5 o'clock, served to attract them to these positions until nightfall, when they scattered to their homes, unsatisfied.

THE POLICE COMMISSIONERS.

The Board met in the afternoon, Gen. Nye in the chair. Gen. Nye presented for adoption a preamble and resolutions, declaring that as "large and tumultuous assemblages of people are marching through the streets, and wild and inflammatory speeches made, that threats of intimidation are not calculated, under our form of government, to redress wrongs or appease hunger, but are well calculated to work a deep and irretrievable injury upon all classes of society, by intimidating the business men of the city who deal in the great staples of food, and likewise prevent the country dealers in produce from sending it to a destination where it is threatened with confiscation by an ungovernable mob, adding thereby to the already high price of food the element of scarcity and increased difficulty in obtaining it, therefore

Resolved, That the Board of Police, in and for the Metropolitan Police District, deeply sympathize with the sufferings of classes in the city, and pledge themselves to do all in their power to alleviate want, yet they firmly and kindly admonish all persons—native citizens and foreign born—to desist from further attempts to excite or keep alive the present excitement in our city in regard to labor or supplies of food.

Resolved, That the people and property holders of this city may rest with entire confidence in the disposition and ability of this Department to meet with promptness and efficiency any attempt by any body of persons to appropriate the property of one class of our fellow citizens to that of another without rendering a full and fair equivalent therefor.

A debate ensued on a phrase in resolutions referring to our "foreign born" citizens, after amendment the resolutions were passed unanimously and the board adjourned until to-day.

THE COMMON COUNCIL DECLINE ADOPTING MAYOR WOOD'S SUGGESTIONS—U. S. TROOPS ORDERED OUT.

[From the N. Y. Courier and Enquirer of Tuesday.]

Both boards of the Common Council have acted on the Mayor's message in reference to the unemployed poor. The alderman resolved not to adopt the suggestions contained in the message, relative to the issue of stock to procure large supplies of food, to be furnished at cost price to the laborers on the public works. They, however, passed resolutions, having for their object the employment of the poor.

The Councilmen also reported that they had not the power to provide the relief necessary, in the direct manner pointed out by the Mayor. They, however, passed resolutions, urging on the different Boards having charge of the public works, to employ laborers, and also recommend the Governors of the Almshouse to purchase and store provisions in anticipation of destitution among the laboring classes. In connection with the late "unemployed" demonstrations in this city, we have the following despatch from our Washington correspondent:

> "WASHINGTON, Monday night.
>
> "The despatches of the U. S. District Attorney McKeon and U. S. Marshal Rynders, on the apprehended violence of the "unemployed" in the city of New York, was considered in a special Cabinet meeting to-day. Orders have been issued to Gen. Scott to concentrate all necessary and available forces for the protection of the government property. Marines here and at Boston have been ordered to New York. Lieut. Col. Harris, of the Marine Corps here on duty, has been ordered to New York and despatched this afternoon. The indignation among the Democracy here against Mayor Wood's incendiary movements is extreme."

Convention of the Discharged Railroad Runners at Indianapolis.

The Railroads having, in accordance with a resolution of the Cleveland Convention, discharged all runners, the discharged runners of all roads centering at Indianapolis held a convention in that city on Tuesday last, and resolved on an attempt to break down the combination formed at Cleveland. For this purpose they determined to unite upon certain routes and solicit passengers and freight for them. They resolved to use their influence for the Bellefontaine and New York Central route to Boston, New York, Philadelphia, Pittsburg, &c., for the Lawrenceburg route for Cincinnati, Lexington, Baltimore, Washington and all south-eastern points; and for the Terre Haute & Indianapolis, and the Terre Haute, Alton & St. Louis roads for St. Louis, Alton and all points in Central and Southern Illinois, and all towns on the Mississippi as far north as Galena.

All lines other than those for which they work are ignored by them, and while they are not required to tell all the truth about all roads to those seeking information of them, it is understood that they are to state positive falsehoods in regard to rival routes.

The want of all posters at depots, of hand bills, runners, agents, &c., they say is seriously felt by the traveling public, and as this new combination will have the field entirely to themselves, they are confident of being able to send the greater portion of the business over the routes they have selected.—*Cin. Gaz.*

PAYING WAGERS.—An enthusiastic, and of course beautiful young lady, with cherry lips and golden ringlets, lost a kiss, and one of the said ringlets, on her faith in Governor Gardner's re-election, which she paid promptly, notwithstanding an offer of release on the part of the happy winner; while a young gentleman of one of "the first families in Chelsea," has had the privilege of wheeling a barrow of sand fourteen miles on the "Sea-girt beach" for having too much faith in His Excellency's chances.

....Hon. Ebenezer Walden, a distinguished lawyer and politician, and one of the first settlers of Buffalo, died in that city on the 11th, in his 80th year.

MISCELLANEOUS ITEMS.

....William E. West, the celebrated American artist, died at Nashville, Tenn., on the 2d inst. Mr. West enjoyed a wide reputation. Most of his artist life was spent in Europe, where he was considered at the head of his profession. He painted a portrait of Lord Byron from life, which is universally conceded to be the best one in existence, and which the artist sold for $2,000.

....Our Minister to France, Mr. Mason, has resigned his post, to take effect on the 1st of January. His successor, Mr. Slidell, will go out to succeed him next spring.

....The banking firm of C. & A. Ives, in Detroit, have suspended payment.

....A letter from Cronstadt, of the 11th ult., states that the total number on board the Lefort line-of-battle-ship, which lately foundered in the Baltic, amounted to 2,000, including her crew of 800, and not 1,000 men, as was stated in the first report. One man alone has been saved; he was washed ashore on the island of Hochland.

....If what the *Journal* says be true, Evansville, Ia., is immensely prosperous. The banks pay specie, money is plentiful, all kinds of business is flourishing, real estate is 20 per cent. higher than it was six months ago, and sales readily made; and what is better, labor is so much in demand, and so well paid, that the poor do not suffer, if they are willing to work. Good for Evansville.

....The Raleigh *Register* acknowledges the receipt of a bottle of brandy forty-eight years old, and says: "This brandy is so old that we are afraid it cannot long survive."

.... Marcus J. Parrott, delegate elect to Congress from Kansas, Henry J. Adams, Mayor of Leavenworth City, and Champion Vaughan, editor of the Leavenworth *Times*, arrived in St. Louis by the steamer Torchlight on Wednesday. Mr. Parrott is on his way to Washington.

.... Mr. Tallmadge, Superintendent of the New York Metropolitan Police, recommends that ten prudent and discreet patrol-men in each precinct be armed with revolvers, so as to provide a sufficient force for riots or unlawful assemblages without the aid of the military. He has ascertained, he says, that the mere *exhibition* of firearms in the hands of those who can legally use them, produces a most potent and instantaneous revulsion in the courage of the boisterous violaters of the law.

.... The Madison (Wis.) *Argus* says that grapes can be successfully raised in Wisconsin, and that two or three handsome vineyards have been planted on the banks of the Wisconsin River, which made flattering returns to their owners.

.... A young man named John Stuart, from Glasgow, Scotland, committed suicide by throwing himself from the railroad bridge into the Fox River, at Aurora. He was under engagement to be married to a Miss Stuart, at Aurora. No cause can be assigned for the act, as he appeared perfectly happy in all his relations.

.... Mrs. Joseph Weddle, of Alado, Ill., was thrown from a horse and so badly injured that her recovery is doubtful.

.... A German named Henry Kranz went into Hey's hotel, in Bloomington, (Ill.,) on the 10th, and fired two pistol balls into Mrs. Hey's head, one entering the right ear, and the other striking just behind the ear and glancing around to the back of the head. Mrs. H. will probably recover. There seems to have been no cause for the act. He has been committed to jail.

.... The Union Manufacturing Company of Norwalk, Conn., and Lounsbury, Bissell & Co., whose works have been stopped, have recommenced operations. They employ a large number of hands.

.... We learn from the Lowell (Mass.) *News*, that the Massachusetts and Prescott Mills, at that place, will commence running full time in about a fortnight, but with reduced wages.

.... An experiment was tried in New York a few days since with a new safety fuse. The fuse was five hundred yards in length and each end attached to a cannon. One of the cannons was fired, and the other, although at such a distance, exploded without any apparent difference in time. The inventors state that the great velocity of ignition, either when passing through air or water, render it a cheap substitute for the galvanic battery for many purposes.

.... A young girl named Margaret Bain attempted to drown herself at Detroit on Saturday last, but her hoops would not let her sink, and she was rescued. Unrequited love was the cause of the act.

....The Marengo (Iowa) *Visitor* says a young child, *but six years of age*, died with *delirium tremens* at "Brush Run." The father, a short time since, was sent to jail for selling whisky, and during his incarceration, his wife made whisky "meat and drink" for herself and child. The wife finally fell down stairs and killed herself and the child was shortly after attacked with all the symptoms of *delirium tremens*, with which it died.

....George Moore, of Springfield, (Mass.) has commenced a libel suit against the *Republican*, of that city, for an article published in that paper reflecting pretty severely on Mr. Moore. He thinks he is damaged $10,000. The Court will probably think differently.

....Mr. Ten Broeck did not win the $100,000 by the victory of Prioress, in England, as has been stated. It was coupled with bets relative to Pryor and Babylon, in such a way that Mr. Ten Broeck lost the $200 staked by him.

LOVE'S YOUNG DREAM DISTURBED—ANOTHER CARTER AND SMITH AFFAIR.—For some days past an afflicted husband has been repeating on the street a tale of unusual bitterness, the truth of which will shortly be tested and which, for the honor of the gentleman charged as being disgracefully implicated, we hope may prove false. We might state at least the position which this gentleman has until recently occupied, and the brilliant prospects perhaps opening to him in a new profession, but in charity we refrain. The tale runs briefly thus:—This gentleman had a fair friend, whom he contrived to dispose of to a hopeful and enthusiastic young riverman. The latter married her and on the tide of his new-found felicity subsided down the river, leaving with vows of affection his faithful bride. On returning a few days since, he found her under circumstances which quite destroyed the fair fabric of his anticipations. Inquiry, he affirms, satisfied him beyond question, that the gentleman who had commanded his gratitude was her paramour, and had sustained to her that relation for months previous.

He has instituted a suit for divorce, and intends to bring the aforesaid gentleman upon the stand as his witness. The result may prove rather curious and interesting.—*St. Louis Dem.*

Report on the Banks.

[Correspondence of the N.Y. Courier and Enquirer.]

WASHINGTON, Nov. 7.

Among the last acts of Mr. Guthrie was to communicate to Congress the Annual Report on the condition of the Banks of the United States. It has just been printed and contains many interesting facts.

According to returns received nearest to January 1, 1857, the number of Banks in all the States and Territories was 1,416, showing an increase of 18 during the year 1856. There were besides a few banks from which no returns were received. The increase of Bank capital during the year was $26,360,414. The amount at near the date of the report was $370,834,686. The amount of loans and discounts was $684,456,887, being an increase of $50,273,607. The circulation was $214,778,822, an increase of $19,030,872. The specie basis for the vast amount of paper circulation was $58,349,838, showing a decrease of $964,225.

The capital of unchartered Banks is estimated at $125,000,000, showing an increase of $6,936,000 over the preceding year. The aggregate ascertained capital of the chartered and unchartered banks is $495,834,000, though the returns of the Banks do not distinguish the gold from the silver in their specie tables, but the Secretary estimates that silver does not constitute one-seventh of the whole.

A comparison of the Bank Returns at different periods for the last twenty years, present interesting results. In 1837, the expansion of the banking system, owing to the pet bank and deposit schemes of the Jackson administration, had reached its greatest height. There were then 788 banks and branches, whose circulation was $149,185,890; specie, $37,915,340; deposits, $127,397,000; loans and discounts, $525,115,702. Coming down to our time, the number of chartered and private banks in 1857 is exactly doubled since 1847. Numerically, therefore, the banks have just kept pace with the population, which twenty years since was 15,000,000, and is now 30,000,000. But in other respects the banking business was vastly more inflated and unsound than now. For example, the circulation was then within a fraction of ten dollars per head of population, it is now but seven dollars per head. In 1837 the specie of the banks was as one dollar to four of their circulation—it is now as 3.60 to one. The loans and discounts of 1837 were as thirty five to one of population—they are now as twenty three to one. Bank capital in '37 was about $20 per head—it is now but $12.33. The public stocks held by the banks in 1837 amounted to twelve and a half millions; in 1857 to nearly sixty millions.

The period of greatest depression in banking since the destruction of the Bank of the United States, was in 1843, when the anti-bank and free trade furor had reached its culmination, and produced its most disastrous effects. Though the population of the country had increased fully 25 per cent. since 1837, the number of banks had declined from 788 to 691, their capital had fallen $62,000,000, or more than 20 per cent., their circulation had decreased $58,000,000, or over 60 per cent., and their loans and discounts $270,000,000, or more than 50 per cent.

The influx of California gold marks the beginning of a period of great activity in banking. In 1851 there were 879 banks; in 1854, 1,208; in 1857, 1,414. Their business increased correspondingly, the seven years from 1851 to 1857 exhibiting an expansion in loans and discounts of $271,000,000, not far from 60 per cent., while population increased less than 25 per cent. But it must also be observed that the business of private banking has arisen chiefly since 1851, and is now said to employ $125,000,000 of capital, which, added to the capital of the chartered banks, produces a much greater extension of business than indicated by the ratio just above given.

It would be of little profit to revive partisan discussions upon our banking system; but justice requires the statement, since an effort is now making to array the Democratic party against the banks, that a very great majority of these institutions created since 1843, when the revival of business gave occasion for them, were chartered by Legislatures under absolute Democratic control. They are the creatures, therefore, of the Democratic party.

☞ The *Gazette*, published at Sumner, Kansas, wishes it to be made known during the present pressure in the States that there is plenty of work for mechanics at Sumner. It says that fifty carpenters, as many masons and a proportionate number of other workmen could be immediately employed at good prices.

CHAIN PUMP TUBING,
Made of Solid Timber.
TEMPLE & WRIGHT, AT THEIR PLANING MILL, corner of Polk and Canal streets, West Division, manufacture a superior article of CHAIN PUMP TUBING,
by using "Wyckoff's Patent Boring Machine." The tube through which the chain passes is bored through solid timber 3½ inches square by from 6 to 8 feet long. Each piece being made with a socket on one end and a tenon on the other, renders it very easy for any one to construct a tube of any desired length in a very short time and with the least possible trouble.
Wherever this article has become known, the old style of Tubing made of two halves has been discarded. Practical minds need but see this tubing to recognize its great superiority. Its great simplicity enables us also to manufacture and sell it at 25 per cent. cheaper than any other kind made.
Dealers supplied on liberal terms.
Orders left at our mill, or sent through the Post Office, will receive prompt attention. TEMPLE & WRIGHT.

Notice.
THE PAST EIGHTEEN MONTHS' EXPERIENCE has given the citizens of Chicago ample proof that the soap process of cleansing gentlemen's clothes will not do, as those inexperienced in the business. The fact of the matter is this, that, unless your coats, vests, and pants, are dyed, cleaned and neatly repaired, by men skilled in their business, they had far better never be touched at all; but when they are operated upon by experienced workmen, it is certainly a great saving to the community at large, at the same time conducing much to their bodily comfort. Now, gentlemen, all of you who know any thing, know enough by this time to be fully convinced that the only true and reliable source of having your coats, vests and pants cleaned, neatly repaired, and made to look like new, is by COOK & McLAIN's Chemical process. It certainly does remove every spot of grease, paint, wax, and tar, together with all other blemishes and impurities to which such garments are liable. The spots are warranted not to re-appear, as a beautiful finished lustre is put on as when first made.
Gentlemen, call at COOK & McLAIN'S, and look at specimens of their Coat Dressing. If they fail to please you, no charge will be made.
Remember, COOK & McLAIN, 86 Dearborn street, south of the Post office. au10-'56-ly,is

WHO that is troubled with any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver diseases of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of DR. SANFORD'S INVIGORATOR, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the INVIGORATOR. See advertisement. no4:1m

Dyspepsia, in all its various forms of emaciated humanity, resulting often from small causes like indigestion, producing Constipation, Flatulency, Nausea in the Stomach, and a thousand other ailments tending to prostrate or debilitate the physical man; any and all of these ills yield like magic to Dr. HOSTETTER'S celebrated Stomach Bitters, giving it the reputation it bears of reinstating to health thousands who have tried its vivifying and strengthening influence upon their almost despairing and broken constitutions. All should use these Bitters during this warm weather, as it is the most effectual preventive of diseases known. For sale everywhere. no1:d&w2w

Almost everybody has heard of "Wood's Hair Restorative." That the word "Restorative," in this case, is no misnomer, we have the testimony of individuals whose elevated position in the country, as well as their acknowledged and honorable character as gentlemen, render whatever they publicly assert in the last degree reliable. Several of these have tested, personally, the hair preparation we are now speaking of, and certify to its amazing efficacy in the most public manner possible.—Their certificates can be seen at the proprietor's depot, 312 Broadway, New York, and once seen and properly appreciated, we have no hesitation in saying they will impress conviction on the most skeptical mind. Wood's Hair Restorative is, doubtless, the best article of its kind ever yet offered.

It does not dye, but gives life, health and beauty to the decaying, falling and dead, restoring, as if by magic, that which was supposed to be irrecoverably lost. Heads nearly bald, and others nearly white, are daily being changed to their pristine beauty, and faces covered with pimples are rendered as smooth as an infant's, and blushing as a rose, all by the use of Prof. Wood's Hair Restorative. HAIR DYE—HAIR DYE—HAIR DYE.—BATCHELOR'S HAIR DYE is the best in the world. It is the original and only harmless and reliable Hair Dye known. No blisters, no itis, no burning of off the hair—the result of using the many base imitations. The ludicrous and miserable effects of bad Dyes immediately remedied, and grey, rusty red or frowsey hair instantly superseded by lustrous black or beautiful brown, and the hair invigorated for life by using BATCHELOR'S LIQUID HAIR DYE. What is so ridiculous as the rainbow tints and lilac heads of hair imparted by these pretenders. Avoid the risk and escape ridicule. Manufactured, sold and applied at BATCHELOR'S, 233 Broadway, New York, and sold by J. H. Reed & Co., Chicago, and all respectable druggists. b19,6m,eod,p101

'WOODLAND CREAM'—A Pomade for beautifying the Hair—highly perfumed, superior to any French article imported, and for half the price. BOGUS HYDROMETERS—NOTICE.—The subscriber, in justice to the public, as well as to himself, publishes the following result of an examination of an Imported Silver Hydrometer, made in close imitation of his Hydrometers, and numbering 305, but no name:

"In Spirit, 21 over proof is showed 4½ per cent. too strong, and the error increased, till at proof it showed eleven per cent. too strong by the Standard Hydrometer."

In returning thanks to the Western Distillers, Brewers and Spirit Dealers, he would observe, that as regards the mechanical finish of his instruments, they will bear favorable comparison with those having the names of "Adams & Tagliabue" upon them, which were put together in the workshop of G. Tagliabue, J. Adams undertaking only the general superintendence and doing the most essential part, namely, the graduating and adjusting, at his own residence. [See the certificates of Drs. Chilton and Cogswell, and Crane, Distillers, N. Y.; also the cards of A. & T.] J. A., however, freely acknowledges that his chief attention is still directed to the accuracy of his instruments: for it appears to him, that when the discovery has been made that eleven per cent. is being lost by the use of a bogus affair like No. 305 without a name, it would be but small consolation to reflect that it was done by a very pretty and well finished instrument.

Messrs. J. H. Reed & Co., 144 & 146 Lake street, Chicago, continue to be supplied with his Hydrometers and Saccharometers, and he pledges himself that the same care and skill which gained for the instrument of his original and exclusive make their character for accuracy, shall be continued to all which bear his name.

A." upon the weights, as heretofore. The quality of the silver (U. S. coin) is also guaranteed. Repairing and re-adjusting promptly attended to. oc21-1m;e84

DALLEY'S MAGICAL PAIN EXTRACTOR.—In all diseases inflammation more or less predominates. Now, to allay inflammation, strike at the root of the disease—hence an immediate cure.

Dalley's Magical Pain Extractor, and nothing else, will allay inflammation at once, and make a certain cure.

Dalley's Magical Pain Extractor will cure the following among a great catalogue of diseases: Burns, Scalds, Cuts, Chafes, Sore Nipples, Corns, Bunions, Bruises, Strains, Bites, Poison, Chilblains, Biles, Scrofula, Ulcers, Fever Sores, Felons, Ear-ache, Piles, Sore Eyes, Gout, Swellings, Rheumatism, Scald Head, Salt Rheum, Baldness, Erysipelas, Ringworm, Barbers' Itch, Small Pox, Measles, Rash, &c., &c.

To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applying a perfect antidote to its apposite disorder.

Dalley's Magical Pain Extractor in its effect is magical, because the time is so short between disease and a permanent cure; and it is an extractor, as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, workshop or manufactory, should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.

For sale by all the Druggists and patent medicine dealers throughout the United States and Canadas. Principal Depot, 165 Chambers street, New York.

LEA & PERRINS' WORCESTERSHIRE SAUCE. The attention of Hotel Keepers, Proprietors of Eating Houses, Caterers for Clubs, Mess-rooms, and Private Families is commended to a trial of LEA & PERRINS' famous Worcestershire Sauce. This condiment by its own merits has attained the highest rank as a pleasant, palatable, and wholesome Sauce, applicable to soup, fish, hot and cold meats, game, &c., &c., is extensively used in all quarters of the globe.

The numerous "imitations" on both sides of the Atlantic speak loudly of its merits; and the fact that it received the only Medal awarded to foreign Sauce at the New York Exhibition attests the estimation in which it is held by those selected with special reference to their ability to judge of the quality of similar articles of table use. And being the most popular Sauce in the market unprincipled parties are offering for sale spurious Sauce by slightly varying the spelling of "LEA & PERRINS," only proprietors of the Genuine Sauce.

A stock always in store. Also orders received for direct shipment from England.

DAILY TRIBUNE.

MONDAY MORNING......NOVEMBER 16.

The Mormon Infernal Machine.

[From the Washington States, Nov. 4.]

It is no secret that Russia, during her late war with England and France, had at her command the inventive talent of the United States. Men of superior science and ability were detailed by the Emperor Nicholas to search the Patent Office, and investigate everywhere the latest improvements in military art; and whatever promised well was carefully tested and generously rewarded.

Among other things, it was suggested to the late Russian Consul-General at New York that the terrible Greek fire of the ancients had been re-discovered by a young inventor of New York, who was experimenting on its application to a new system of military defences.

The Consul-General knew Mr. Mont Storm, the young inventor in question; and on bringing forward the subject, was informed that whatever service he could render be (the inventor) placed, without conditions, completely at the service of Russia until the close of the war.

The allies were then before Sevastopol, and Mont Storm's first advice was to carry out a series of distinct wires from the citadel to the Redan, Malakoff, and every redoubt and advanced post which could possibly fall into the hands of the allies. *Caisses* and huge shells of a particular construction, charged with powder and a burning material difficult to extinguish, were to be laid in the most destructive positions under the outer defences, and connected with those concealed wires. By this application of the electric telegraph—for this it is in effect—these posts could be hurled at will to instant destruction, at miles and leagues, distance. Half a dozen vigilant and well posted men could watch over and blow up, at the moment a foe obtained possession, any extent of fort, highway, or whatever approach they could manage to plant with these formidable shells.

Something of the kind was attempted at the taking of lower Sevastopol; but the French discovered and cut the badly concealed wires, too hastily put down at the last hour. The electric wire, however, must be counted henceforth in the list of military appliances, and, with the aid of the Greek fire, and what the inventor styles the "nautilus principle," it may revolutionize the existing war system as completely as gunpowder displaced chain armor and archery.

It was, however, principally with reference to coast and harbor defense that Mont Storm valued his discoveries and combinations, and he was quietly preparing his experiments in that line, in co-operation with the Russian Consul-General, when the news came of the peace negotiations. Mont Storm then concluded to lay his plan before Congress, and ask for it a thorough public trial, and an accomplished designer and machinist was engaged to prepare the necessary drawings and specifications. This man was an English Mormon—a self-sacrificing devotee to his faith, but of excellent private character apart from that, and exemplary in the discharge of the business confided to his care.

The first set of drawings and specifications he prepared were submitted to Secretary Davis, with a request that he would refer them to some officer of ability, as the inventor wished the preliminary opinion of some experienced military men on certain points before they were presented to Congress. Secretary Davis complied with this request, and an officer of the character and capacity was committed on the system. This officer and Gen. Quitman, Chairman of the Military Committee of the House of Representatives, and two other gentlemen, formerly in the military and naval service of Texas, were the only parties entrusted with the details of Mont Storm's system of defence, with the exception, of course, of the inventor's Russian friend.

Upon the suggestion of some of these parties Mont Storm withdrew his plans from the Government archives, where they had been filed, and prepared to make a series of experiments, on the best mode of exhibiting the incendiary material. As he was much occupied with some other invention, he made inquiry for a capable man to take charge of his experiments, and soon found one whose quick comprehension and mechanical ingenuity entirely fitted him to take charge of the business.

To compress the whole subject into one sentence, it now comes out that the pattern-maker and experimenters were all Mormons; and after becoming perfect masters of whatever there was to learn of the new system of land defence, they left the service of the inventor, and carried their knowledge to Utah. They had satisfied themselves that old kegs, hollow trees, common boxes, anything in short which could be made to contain a bottle of the burning fluid, a little powder, and a considerable amount of missiles, whether of balls, iron scraps, or pebbles and fragments of rock, could be converted into cheap and formidable batteries, whose discharge could be governed, at almost any distance, to a second of time; and the Mormons may be prepared to try the powers of the new system in the defiles of Utah.

It is admitted that the Mormons are manufacturing arms, and their arrogant defiance of the military force of the United States, and the boastings of their elders that they are ready to send to swift destruction tens of thousands of the Gentiles, if they dare enter their Territory in battle array, may not be altogether without a serious meaning. The absolute and final result of a conflict between the Mormons and legal authorities of the United States must be a triumphant vindication of the law; but it will be well to look thoroughly into their capacity to give trouble, and be on the alert for every contingency.

Curiosities of the New York State Census—Marriages.

[From the Albany Evening Journal.]

The Census of the State of New York, taken in 1855, is now published in quarto form, and in the highest style of the typographic art, by the accomplished printer Van Benthuysen. The delay in the production of this work was a necessary one, occasioned by the immense labor of examining the returns, and the extreme care required to arrange them in tabular form and to present the results of the Census of the State in every interesting statistical relation. This has been the work of Franklin B. Hough. That it has been performed in a style of unequalled excellence, the volume itself bears ample testimony.

Among the curiosities of this Census, are some facts concerning that most interesting of all facts in social life, Marriage. The total number of unions by the silken bond, in the year 1855, was 21,551. The most of these "eventuated," as the Honorable Elijah Pogram would say, in New York County, the least, in Hamilton County. Sympathy, arising out of similarity of condition, was hardly as influential as one would suppose, in determining the second and third marriages of that year. For while 927 widowers mated themselves with widows, 2,067 widowers sought consolation and matrimony among young, or old girls. Of previously unmarried men, 565 were led to the altar by widows. Of first marriages, on both sides, the blessed number was 17,935.

Why there should be more marriages in any country, in one month than in others, is a question not of statistics. The facts which Mr. Van Benthuysen has printed on this head, are, that in January of that year, '55, the number of couples who sought felicity in wedlock was 2,259—in February less, 1,918—in March less yet, 1,817—in April still less, 1,675. May has ever borne a high hymenial character. It smiled in this State in 1855 upon 2,050 marriages. June followed with 1,342. July had 1,290. August, for some reason not set forth by the printer to the Legislature, had the least of all the months—only 1,145. September picked up, with 1,780. October did better with 2,060. November, a month without poetry or beauty, had only 1,893. December closed this paradoxical business of making two one, with 1,903 marriages. The whole number of weddings in Albany County in 1855, was five hundred and fifty.

The ages of all those forty-three thousand brides and grooms, in this State, will of course be interesting to our readers. Mr. Hough has searched it all out, and his co-adjutor in this statistical gossip, has printed it in his plainest type. Among the husbands, who were not chickens, were two who took the vows at the age each of 85 years. One of them joined himself unto a damsel of 66, and the other with more vernal tastes, sought felicity in the society of a girl of 40. Of young wives (could their mothers have known that these goslings were out?) there were thirteen who were only 13 years old? Seventy were only 14 years old. Two hundred and forty-nine were 15 years old, and of "sweet sixteen" wives, there were 676. Of the baby husbands who also escaped maternal watchfulness that year, four were 15 years old! One of these was picked up by another baby—a girl of 14—another was entangled by a 15 year old female—another was trapped by a tough young lady of 22, the fourth was kindly taken in and done for by an experienced woman of 23. There were twelve husbands who were only 16 years old each. There were thirty-eight who were only 17 years old. There were (their impatience increases) one hundred and fifty-nine husbands, who were only 18 years old, when they undertook to solve that connubial paradox that two are one. It will not at all surprise our readers to learn that sixty-three of these infants married women older than themselves. The tastes of two of them, led them to select wives 40 years old—rather, they got selected, poor chickens, by those old hawks, who had unquestionably been watching for them ever since they were out of the shell.

The age amongst the men at which there was most marriage, was 23. The age at which most women married in that year, was 20. The oldest bride had reached the maturity of 77. The groom in this case was a year younger.

The three favorite hymenial periods of life among the girls of New York in 1855, were at the ages of 19, 20 and 21. Corresponding to these among "the boys" were the ages 21, 22 and 23.

For the want of a law compelling persons who perform the ceremony, to report marriages to some proper public officer, it is very certain that the marriage statistics gathered in this volume, are not correct for any one county in the State. The New York City Inspector, in the year 1855, reported 5,308 cases of wedlock within his jurisdiction. This State Census figures them up at only 2,852. Mr. Hough notes the discrepancy, but can not cure it. No notice was statistically taken of marriages within the State, between parties residing out of it—their felicity not being an integral part of the New York happiness, and the probable consequences of their conduct, being "outside barbarians" altogether. The interest which will attach to this fact, however, is not near so great as that which will be awakened by our announcement of the truth, that there are not men enough in Albany county to furnish husbands for the women that are in it. Add together all the white males of 15 years of age and under 25—divide the sum of them equally in nuptial alms among all the white females in the county of the same age—and there will be a remainder of 2,294 maidens, condemned by these statistics and the marriage laws of our State to lives of single blessedness.

THE LAST DESECRATION.—Another dead blackguard has been carried in procession, shrouded in the flag of our country. Pierce, the late President of the "Rough Skins," was buried in Baltimore, on the 8th, with great pomp and circumstance. His coffin was shrouded in the American standard, and the Plug Uglies, and other organizations of ruffians, followed. Pierce, it will be remembered, was shot dead a few nights since by persons unknown. According to Baltimore taste, he is a martyr.

NOTABLES AT SING SING PRISON.—Huntington, the forger, is keeping the books for the contractor of the cabinet shop. He professes to be contented to serve out his term, but names several New Yorkers who deserve, (he thinks) the State prison as much as he. Mrs. Robinson, the "veiled murderess," has an invariably affected sly smile for male visitors to the prison, but will not be seen by females if she can avoid it. At first she gave much trouble, but is now tractable.

The journeymen tailors of St. Paul are on a strike. At present prices they earn only $14 to $16 a week.

Opticians.

IMPROVE YOUR EYESIGHT.
AT THE
OPTICAL
ESTABLISHMENT
AND EYE INFIRMARY
37 - Clark Street, Room No. 2, Up stairs. - 37
CHICAGO, ILLINOIS.

To those Suffering from Bad Eyesight.

DR. ROSENBERG, OPTICIAN AND OCULIST, (late of Paris, France,) calls the attention of the public, and in particular of those whose eyesight is weak and failing, to his

Newly Improved French Crystal & Brazilian Pebble
SPECTACLES.

The clearness and perfection of these Glasses, and the scientific principle on which they are ground, are such that they never fail to relieve persons with sore or inflamed eyes, preserve and strengthen the eyesight of the old and feeble, as well as of the young, and enable persons of all ages to read and write, or to employ themselves constantly upon fine and close work, without injury to their sight.

Improved Eye Glasses, Spy Glasses, Magnifying and Opera Glasses, Microscopes, Telescopes, Thermometers, etc., always kept on hand in great variety.

Advice and consultation on diseased eyes, free.

Short or long sighted persons residing at a distance requiring Spectacles, and not being able to attend personally, can be supplied with them, safely and quickly, through the mail or by express, by forwarding to me answers to the following questions: First—State your age, state of health and occupation. Second—State if you want spectacles to see distant objects clearly, or for reading and writing only, or for both purposes. Third—State the exact number of inches your eyes are distant from this print, while reading it quickly and with ease.

The price for my different qualities of Spectacles are as follows:—Fine Pebble or Crystal Glasses set in one gold Bows, $12, $10 and $8; in silver bows 5, 4 and 3 dollars; in steel bows, 5, 4, 3, 2 and 1 dollar a pair. By inclosing one of the above sums, together with 4 post-stamps in your (registered) letter, you will receive by return mail a pair of specs or eye glasses of the quality you paid for, and of the proper power to suit your sight.

Persons desiring additional information on any of the above subjects, or in regard to diseased eyes, &c., must invariably enclose a post stamp in their letter, otherwise it will not be answered.
L. E. ROSENBERG,
Optician and Graduate of the Optic Oculistic Colleges of Vienna and Paris.

THE following certificates are among numerous others which he has received from the most distinguished and scientific men:

LINDENWALD, Columbia Co., N. Y., May 11, 1856.

Dr. Rosenberg—Sir: I have received the Eye Glasses which I ordered at your establishment, and selected by your advice. They are of a superior quality, and perfectly adapted to my sight. I think the French Crystal glasses in clearness and purity of material far surpasses any spectacles I have formerly used. I can now read by the aid of the finest print by candle light with ease. I am, sir, respectfully yours
MARTIN VAN BUREN.

Medical.

Are You Sick?

THEN YOU CAN'T BE CURED TOO soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four-fifths of all the diseases which people the church yards, might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quick as they are taken. They are the one great medical wonder of the age, recognized by all who know their virtues, and many thousands know them. Take the Cherry Pectoral for a cough, and the Pills for all derangements requiring a purgative medicine.

J. H. REED & CO.,
no1:2m Wholesale Druggists, 144 & 146 Lake street.

NOTICE.—DR. C. B. EGAN IS NOW prepared to treat all Scrofulous, Cachectic and broken down conditions of the system, as he uses in his practice a peculiar preparation of Sarsaparilla, with which his brother, Dr. Wm. B. Egan, was so successful in this city and State a few years since. This medicine has cured numbers of cases in Europe which resisted every other means, and in this country it effected cures where the American preparations had entirely failed. There are persons now residing in this city who owe to this safe and powerful Alterative, renovated and vigorous constitutions. Office 138 Randolph street, opposite the Matteson House. Residence S. ILLINOIS CENTRAL RAIL ROAD.
LANDS FOR SALE.

THE ILLINOIS CENTRAL RAILROAD Company invites the attention of Agriculturists and Farmers to the fertile lands adjacent to their road, which are offered for sale upon low terms, and long credit at low rates of interest.

It is the policy and wish of the Company to sell all their lands to actual settlers; and no inducement is offered to speculators; in fact none will be sold on long credit, without the distinct obligation of cultivation.

Illinois occupies the most central position of the Western States, and comprises the most fertile section of the belt of land extending from the Atlantic Ocean to the Missouri River, including New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa and Northern Missouri.

Unlike the States North of us, the productions are not checked by rigorous winters—nor is the heat of summer oppressive. The lands West of the Missouri gradually and rapidly decrease in fertility, till they blend with the Great American Plain, and being chiefly, if not solely adapted to grazing, can never compete with those of this State.

The lands bordering upon the Missouri and Kansas Rivers, and upon the lines of the proposed roads in Iowa, have been taken up, and are now selling at from $10 to $15 per acre, although settlers have to pay heavy freights upon the transportation of their agricultural tools, furniture and goods; and when their crops are produced, the extra cost of transportation to Eastern markets exceeds the cost of production.

Looking to the future growth of our country, this State, which combines the most favorable temperature with the richest soil and most healthy climate, will for all time be the great grain producing district. It is full of mineral wealth, such as Coal, Iron, Lead, Lime-stone, &c., and has already the advantages of churches and schools, of population, and of the investment of capital. Moreover, there is scarcely a county in Illinois which has not a supply of timber. The southern section of the State includes at least 2,000,000 acres of the best quality of timber land; and the extensive pineries of the adjoining States, accessible by the Lakes, furnish Chicago with an immense quantity of timber and lumber, amounting in 1856 to 460,000,000 feet.

Illinois, especially during the last ten years, has been rapidly developing her resources. The population is now about 1,500,000, and eighty millions of dollars are now expended for Railroads, which, with the waters of the Mississippi, Illinois River, the Michigan Canal and Lake communications, afford cheap and convenient means for the transportation of her products to every market. Abounding million acres of the Company's lands have already been sold, and many flourishing villages are rising along the road, with which these lands can be cultivated, that in two years farmers can readily surround themselves with all the comforts of old settled farms in the Eastern States; and such is their fertility and productiveness, that property purchased at from $6 to $25 per acre at six years' credit at two per cent. interest, can be fully paid for within that time, together with all the costs of improvements, by extraordinary industry, from the profits of the crops.

Although it is evident that lands in the vicinity of railroads in Illinois will advance to $50 or even $100 per acre within ten years, yet the interests of the Company are more advanced by placing their property in the hands of farmers, to settle the country, relying upon the business of the road for the chief profit, and it is in fact the great object of the Company to [illegible] to the State. These considerations induce the policy of rapid sales, which have been progressing and increasing for two years past, and will be pursued till the lands are finally disposed of. No encouragement is given to speculative purchasers, as the Company does not wish to dispose of any of its lands except for actual settlement and cultivation. It is evident, therefore, that the best interests of settlers can nowhere be as well promoted as by purchasing and settling upon these lands.

Fine Residence Property
ON MOST FAVORABLE TERMS.

THE UNDERSIGNED IS NOW PREPARED to sell at private sale, to parties desiring first-class Residence Property, and willing to improve immediately, Two Hundred Lots in Blocks five, six, seven, eight, nine, twelve and thirteen in Union Park, Second Addition, in West Chicago.

That the advantages of the West Division are fast becoming appreciated is evident from the fact that its population is shown by the census returns to double itself every three years. If that rate of increase should continue, the number of its inhabitants will amount in six years to one hundred and fifty thousand. It contains most of the high ground, is protected from the east winds, and on the healthy side of the city, where the south-west winds of the hot season bring pure air from the prairie, instead of the noxious vapors of the river, into which nearly all our sewers empty themselves. With one-half the harbor front, and two-thirds the territory within the city bounds, and unlimited room for expansion beyond, receiving all the great Railroads from the west, north and north-west, the main business streets passing through it, the only part of Chicago where the products of Northern Illinois, Iowa, Wisconsin, Minnesota and Nebraska can be received and shipped without the necessity of crossing a draw-bridge,—it requires no sagacity to see that in time it will become the principal business part of the city, as it is already the first in population, and that Lots there will rise in value steadily and rapidly for years to come.

The property now offered is strictly first-class, and is the only first-class property in Chicago that can be bought at a price and upon terms within the reach of gentlemen of moderate incomes. It extends from Lake street north to Depot place, and from Ada street west to within one block of Union Park, a beautiful public park containing eighteen acres of ground, and the only large park that will ever be laid out within walking distance of the centre of the city. According to a topographical survey made in 1854, by D. Harper, Esq., then City Superintendent, the surface level is the highest in Chicago, being seventeen feet above Lake Michigan, and ten feet higher than the natural surface at the corner of Lake and Clark streets—a very important consideration in view of the great expense and inconvenience of filling up and raising the grade to accommodate it where it will be required.

The distance of the property is about one mile, or fifteen minutes' walk, from the new Merchants' Exchange, the commercial centre; and within four blocks of the geographical centre. The buildings of the Chicago Theological Seminary, to be erected next year, at an expense of over a hundred thousand dollars, will be in the immediate vicinity. Walker's omnibuses running to State street, pass on Lake street every half hour, and will be increased in number as the public accommodation may require. The Gas and Water Pipes and Sewers will soon be laid on the principal streets. The market house, good public and private schools, and churches of nearly all the denominations are within a short distance, and the neighborhood is in all respects pleasant and desirable.

Each block is well fenced, and every lot has a good new six-foot sidewalk in front, and is handsomely ornamented with elm, maple, mountain ash, larch, spruce and fir trees, taken from a nursery and set out by an experienced land scape gardener.

The conditions of sale will be as follows:—1st. Every buyer to be required to build on his purchase. No house to be erected within ten feet of the street line, or of a less value than one thousand dollars. 2d. Not more than two lots to be sold to any one person, unless he will covenant to make improvements to the value of five thousand dollars, when he shall have the privilege of four lots. 4th. Parties wishing to build immediately shall have a credit of six months on the cash payment.

Prices will range from forty to seventy-five dollars per front foot.

TITLE.—A full and complete abstract will be exhibited from the office of Rees, Chase & Co., with a general warranty deed from Wm. B. Ogden. The buyers can have either agreements, in the usual form, with thirty days' grace, for special warranty deed, taking notes for the deferred payments.

TERMS OF PAYMENT.—One-tenth of the purchase money down, one-tenth in six months, one-tenth in twelve months, and the balance in eighteen equal semi-annual payments, interest semi-annually, at seven per cent. per annum; or one-third down and all the balance at the end of ten years, with interest semi-annually, at six per cent. per annum. Purchasers may have the right to pay up and receive a deed at any time.

A Rare Chance

FOR INVESTMENT IN RIVER FRONT, in Greene's South Branch Addition—Lots 21, 22 and 23 for $60,000.

One-fourth cash, the balance at the end of 10 years, with interest at 6 per cent. payable semi-annually.

Also, Lots 15 and 16, in the same Addition for $32,000, same terms.

Also, Lots 11 and 12, for $30,000, same terms.

The above Lots will be docked and dredged, on or before the first August, 1858. Also Lots 17, 18 and 19, for $35,600, canal time. Parties wishing to avail themselves of this unusually favorable opportunity for a permanent investment, by calling upon

Shingles! Shingles! Shingles!

THE UNDERSIGNED HAVE LEASED OF Wm. Bevard his Patent Right and Machine to manufacture Shingles in this city, and are now ready to manufacture this product, producing a superior quality, indeed, we do but repeat the opinions and expressions of many Builders, Architects and Dealers, when we say, that "they are the very best Shingles made."

This, in connection with the other fact, viz: that we can manufacture them from thirty to forty per cent. more shingles out of the same quantity of Bolts, enables us to compete successfully with any other "shingles" in market.

Please leave your orders at our Mill, on the corner of Polk and Canal sts., West Division.

Railroads.

Going East.

Michigan Central Railroad,

Change of Time, June 1, 1857.

AND CANADA BROAD GUAGE RAILROAD. The only reliable route; making sure connections. To Niagara Falls, Buffalo, Rochester, Utica, Hornellsville, Elmira, Binghampton, Albany, Troy, New York, Philadelphia, Boston, and New England States.

Wide cars, and free from dust.

THROUGH TO NEW YORK IN 31 HOURS.

The Michigan Central Railroad has the advantage of an EXCLUSIVE TELEGRAPH LINE, used entirely for the movement of all trains, thereby avoiding the possibility of collisions or delays, so annoying on other routes.

Five Daily Trains leave Chicago, as follows:

5.30 A. M. Lightning Express; arriving at Niagara Falls or Buffalo at 10 P. M. same night, New York, at 1.30 P. M., next day, Boston 4 P. M.

7.00 A.M. Express Mail, making direct connections, thro' to Niagara Falls, Buffalo, New York and Boston.

7.00 A. M. Cincinnati Express; Making direct connections to Lafayette, Indianapolis, Cincinnati, New Albany, Louisville, Dayton, Columbus, Zanesville, Wheeling, Pittsburg, Philadelphia, Baltimore and Washington.

3.00 P. M. Afternoon Express; arrives in New York at 9 A. M. second day, or Boston at 1 P. M. Philadelphia at 10.20 second morning.

8.00 P. M., Steamboat Express: Connecting with North Shore Line of Steamers at Detroit next morning, through without landing connecting with morning Express at Buffalo, arrive in New York at 9 P. M. and Boston 1 at night. Also connects direct through by railroad via Niagara Falls or Buffalo. Connects at Michigan City to Indianapolis, Louisville, Cincinnati, Dayton, Columbus, Wheeling, Baltimore, Pittsburg, Philadelphia and Washington.

☞ THE QUICKEST TIME TO N. YORK IS OVER THIS ROUTE. The trains on the Chicago, Burlington & Quincy, Galena & Chicago Union, Illinois Central and Michigan Central Railroads run into the same depot at Chicago, saving the expense to passengers of hack hire and transfer of baggage.

The 5.30 and 7 A. M., 3 P. M. and 8.00 P. M. Trains make direct connections at Toronto with the

GRAND TRUNK RAILWAY!

to Kingston, Ogdensburg, Montreal, Quebec, and all points in Canada East, Northern Vermont, New Hampshire and Maine.

It is well known by the traveling public that this Road has no competitor of equal facilities from Chicago to Niagara Falls, New York, Boston, Ogdensburgh, Montreal, &c.

The only Train that leaves Chicago Saturday night is over this route, 8.00 P. M. One train Sunday at 8.00. P M No 3.00 P. M. Train Saturday.

Baggage checked through to Niagara Falls, Buffalo, Albany, New York, Boston, Elmira and Philadelphia.

☞ Passengers arriving at Chicago by any of the Railroads, will find competent Agents on the cars and Baggage Masters at the depots, to receive checks and convey their baggage to the Mich. Central R. R. depot, free of charge.

Through Tickets good for Ninety Days, allowing holders to remain over and resume their seats, can be bought at the different offices in the West; also, at the Passenger Depot, foot of Water street, and at the General Ticket Office, corner Lake and Dearborn streets, Chicago, opposite the Tremont House.

AMERICAN CENTRAL RAILROAD LINE.

Marietta & Cincinnati Railroad.

THE MOST DIRECT ROUTE TO PARKERSBURG, BALTIMORE, WASHINGTON, PHILADELPHIA AND NEW YORK.

GREAT TRUNK LINE.

Look at any Railroad Map to discover the peculiar advantages of this new and most direct Eastern Route.

The way and sleeping cars, in cold and cheerless cars, stuck fast in snow drifts, by this route.

The cars of this road are new and of the most approved construction, and comfortably warmed.

The route leaves Cincinnati eastward from the depot of the Little Miami Railroad, and passes through the southern portion of Ohio. Between Cincinnati and Baltimore the distance is 588 miles, which does not vary one degree from

AN AIR LINE.

Cincinnati to New York, only 773 miles; Philadelphia only 685 miles; Baltimore, only 588 miles; Washington only 583 miles.

☞ Passengers, observe particularly, this line is the shortest, and has the right, by resolution of the Railroad Convention at Cleveland, to fix the fare between Cincinnati and all Eastern cities. Passengers may, therefore, rely on the fare by this route being as low as by any other, because all the other routes are governed by this.

Passengers from Chicago who go to the Cincinnati Express on the Michigan Central Railroad, will arrive in Cincinnati in season to connect with the fast Express train on this road, and thus go through without delay.

Winter Arrangement.

On and after MONDAY, Nov. 9, 1857, three Daily Trains leave Depot of Little Miami Railroad, Front st., Cincinnati, as follows:

BALTIMORE, WASHINGTON & CINCINNATI EXPRESS Will leave Cincinnati at 6:20 A M, stopping only at the prominent stations on the line between Cincinnati, Baltimore and Washington. By this train passengers reach the Ohio river at 3 P M; have one hour for dinner on the steamer John Buck, during which time they are transported across the Ohio to Parkersburg, Va; leave there at 4:30 P M, and continue on Express Train, arriving in Baltimore at 10:30 A M and Washington at 11:20 A M.

☞ Passengers for Philadelphia and New York continue directly through without delay in Baltimore, if they desire to do so.

MAIL AND WAY EXPRESS

Will leave at 10 A M, stopping at all principal stations with the United States Mail. This train reaches Parkersburg at 9:45 P M, where passengers remain over night in a new and first class hotel adjoining the depot, resuming their journey at 5 A M next morning, and continuing on the United States Mail train through to Baltimore, Washington and other Eastern cities.

CHILLICOTHE AND HILLSBORO' ACCOMMODATION

Will leave Cincinnati at 3:30 P M, stopping at all stations. Arrive at Hillsboro' at 6:45 P M; Chillicothe at 8:25 P M.

☞ Through tickets for sale in all principal the Railroad ticket offices in the West. To secure all the advantages above enumerated, ask for tickets via Marietta Railroad, and don't take any other.

If you cannot procure such tickets, pay only to Cincinnati, and there procure tickets by this route. You will always save money by this course.

Baggage checked through to Baltimore, Philadelphia, Washington City and New York.

Through tickets and all other information can always be obtained at the Company's Office, No. 3 Burnet House, of M. COLEMAN, Agent; at office under the Spencer House, of J. B. OWSLEY, Agent; and at the regular Ticket Office in the Little Miami Depot.

Medicines, &c.

ONE DOLLAR
WILL BUY

ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public, namely, DR. SANFORD'S INVIGORATOR, or LIVER REMEDY, that acts as a Cathartic, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a LIVER remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operation of most Cathartics. It strengthens the system at the same time that it purges it, and when taken daily in moderate doses will strengthen and build it up with unusual rapidity.

DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums.

Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel, without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the form of the INVIGORATOR, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in its effects. It has rarely ever failed to cure Liver Complaints in their worst forms.

INDIGESTION being caused by a deranged Liver, is cured when the Liver is excited to action.

JAUNDICE is caused by an improper action of the Liver, and is [illegible] the Invigorator, [illegible] let any one troubled with Jaundice take the Invigorator regularly one week, and his skin will begin to assume its original color.

CONSTIPATION can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels are left in a healthy and active state, and work as regularly as clock work.

SICK HEADACHE is very soon relieved by taking a double dose of the INVIGORATOR, which removes the acidity and sourness of the stomach.

For an over-loaded stomach it has no equal, as it relieves all oppressive or uneasy feeling after eating heartily. For a family medicine generally, all who have tried it will say it is the best.

Dr. Sanford's Invigorator

Came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver, the testimonials of many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure for the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.—[State Paper.

We take infinite pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

There has never been tried in our family a remedy which has met with such unbounded success in every case of disease incident to children, as DR. SANFORD'S INVIGORATOR; nor is it alone for diseases of children that we use it; for it acts as a Cathartic so mildly and gently, yet so effectually, and renovates the system so thoroughly that we think we are doing a service to all in advising them, when they need medicine, to try it without delay. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach and Bowels, where all other remedies failed to give relief. It has become the family medicine, and we will not be without it.—[Jacksonville (Ala.) Republican.

JUST PUBLISHED,

THE UNFORTUNATE'S GUIDE, GIVING directions where to obtain Medical aid, and containing astounding facts and thrilling and interesting informations never before in print. By Doctor WM. THOMSON. Price twelve cents. Upon the receipt of four postage stamps the book shall be forwarded free from observation, to any address in the United States or Canadas. As it contains important private information for both sexes; the author received, through the Post Office during the last month from every portion of the country and city, over three thousand orders, for as many copies, evidently in the hand writing of females, but fictitiously signed, for the purpose of preserving their incognito. It is no "catch penny," but abounds in startling and interesting truths, extracted from the author's diary and case books, the result of thirty years' practice in all climes, in the treatment of the sexual organs, which gave him a better opportunities than those enjoyed by the Roman Catholic Confessor, to look behind the curtain.

Address Dr. Wm. Thomson, Box 173, Chicago, Illinois.

☞ Doctor Thomson's Offices and Consulting Rooms, 229 Lake street, Chicago, Ill., where every form of Private Disease is treated upon the principles based on the solid basis of science and sound philosophy. Those afflicted with Spermatorrhea (seminal emissions), or any private disease, before applying to any physician for any private disease, should obtain a copy of the Unfortunate's Guide, and thus be enabled to escape the disastrous consequences of quackery.

DR. HUBBELL'S
MEDICAL INFIRMARY,
85 .... RANDOLPH STREET, ... 85
Opposite the Revere Hotel.

TO YOUNG MEN AND OTHERS.—NERVOUS Debility and Chronic Diseases, the first and direct consequence of excess and abuse of the sexual system, a peculiar diseased condition of the seminal organs, which is produced by masturbation. To whom these disorders, some in one case, some in another, are again the direct consequences of this disease, viz: Seminal Emissions, General Debility and Nervousness, Distaste for Society, Gloomy Presentiments, pains and weakness in the back, impairment of mental vigor and memory, weak and watery eyes, pimples on the face and body, restlessness or nervous irritations and unrefreshing sleep, unfitness for marriage relations, and improper activity of the organs, indigestion, costiveness, piles, dyspepsia.

In the train of this, more or less in each case, every sufferer from solitary indulgence can always find a hereditary or latent taint predisposing to disease, as scrofula, consumption, apoplexy, rheumatism, epilepsy, imbecility, insanity, &c., of which is a sad truth, and which it calls into activity, and is actually the most frequent cause of those maladies in young persons, as proved by the statistics of all countries. And the cure of the latter is equally true of the sexes. But in time this disease and its consequences is perfectly amenable to treatment.

Dr. Hubbell for many years past has been consulted upon and attending to this case of this view, that his attention has been necessarily much directed to its treatment and cure, and he is happy to add has, beyond his most sanguine expectations, achieved a treatment at once safe and certain, and free from painful operations or nauseous medicines.

Think and reflect upon these facts, that an inexperienced physician is worse than none at all, and that it requires peculiar attention to private diseases to acquire a competent knowledge of their treatment. It is far better to go at once to one who understands the disease in all its forms.

Having been long established in this city, he can appeal to his certificate of success, which is for those who have great knowledge with the inexperienced.

Highly Important to Females.

DR. HUBBELL, fifteen years in the practice of Medicine, Female Physician and Obstetrician, offers to ladies his professional services in the treatment of every form of disease to which their sex is liable, and in other cases requiring surgical operations or otherwise, will be received on liberal terms. Convenient offices for consultation for ladies from a distance, who will be furnished with all necessary attention and with which those who would like to place themselves under Dr. H.'s treatment until recovered. Experienced nurses in attendance. Communications for advice promptly answered.

Persons living at a distance by giving a plain statement of their case, will be attended to at their homes.
